UNIVERSITY OF EXETER

E D U C A T I O N I N U . A . E .

UNITED STATES GOVERNMENT
MINISTRY OF EDUCATION

DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

EDUCATION IN THE U.S.A.

INTRODUCTION

We feel grateful to God who guided us to offer our nation in this short period all that we could do, bearing in mind that the advent of this Ministry has been - like that of the nation itself - very recent..

When the U.A.E. became an independent country on 2nd Dec.71 I was entrusted with the Ministry of Education .

I am sure that the responsibilities of the Ministry are great.. The Ministry is charged with the dearest things to peoples' hearts.. their sons and daughters and their future life. I can hardly believe that there are any people who do not realize the value of education. Education now has become a necessity to people like life itself whether those people live in huts or palaces, in villages or cities. Bearing this in mind the Ministry- under the guidance of H.H. SHEIKH ZAYED BEN SULTAN AL NAHYAN President of the U.A.E. - has done its best to offer all the population modern education .

We started work as one family ..we worked day and night.. laid down the foundations and regulations and divided the Ministry into departments and sections .

I have the pleasure to submit this short report that may give a true picture of Education in our young country.

I am enclosing also different Statistics to enable the reader to form an idea of the expectations of this country which will-I hope- reach very shortly the standard of other civilized countries.

God speed our efforts , strengthen our brotherly ties on a foundation of knowledge and religion.

ABDULLA UMRAN TARYAM
MINISTER OF EDUCATION

INTRODUCTION

We feel grateful to God who guided us to offer our nation in this short period all that we could do, bearing in mind that the advent of this Ministry has been - like that of the nation itself - very recent..

When the U.A.E. became an independent country on 2nd Dec. 71 I was entrusted with the Ministry of Education .

I am sure that the responsibilities of the Ministry are great.. The Ministry is charged with the dearest things to peoples' hearts.. their sons and daughters and their future life. I can hardly believe that there are any people who do not realize the value of education. Education now has become a necessity to people like life itself whether those people live in huts or palaces, in villages or cities. Bearing this in mind the Ministry under the guidance of H.H. SHEIKH ZAYED BIN SUUTAN AL NAHYAN President of the U.A.E. - has done its best to offer all the population modern education .

We started work as one family.. we worked day and night.. laid down the foundations and regulations and divided the Ministry into departments and sections .

I have the pleasure to submit this short report that may give a true picture of Education in our young country.

I am enclosing also different statistics to enable the reader to form an idea of the expectations of this country which will - I hope - reach very shortly the standard of other civilized countries .

God speed our efforts , strengthen our brotherly ties on a foundation of knowledge and religion .

ABDULLA UMRAH FARAYAN
MINISTER OF EDUCATION

1- General Education :-

A- Primary Education : 4 years
(Schools following Qatar system: 6 years)

B- A SHORT SURVEY OF EDUCATION IN U.A.E.

(includes preparatory schools and one-
skilled Preparatory Schools)

C- Secondary Education : 4 years

Before the U.A.E came into existence Education was in the hands of individuals . Some private schools were built like the Ahmadeya School , Saa'da, Falah in Dubai , Quasemeya in Sharjah and similar schools in other Emirates.

This kind of education started in 1958 and was more

Later on , some Arab countries sent delegations of teachers and built schools such as Kuwait, Egypt, Qatar, Saudi Arabia and Bahrain.

After the Ministry had come into power it took over

Modern formal education started in 1952.

Preparatory : 2 years

Secondary : 2 years

Students should finish six years of general education before joining these schools.

There are courses in carpentry , electricity , mechanical engineering -----etc.

D- Commercial Schools:-

T.A./.

The aim of these schools is to supply students with enough details about commercial and Secretarial work and to prepare them to hold clerical posts in their country.

T.A./.

A SHORT SURVEY OF EDUCATION IN U.A.E.

Before the U.A.E. came into existence Education was in the hands of individuals. Some private schools were built like the Khamsheya School, Sa'ad, Fala in Dubai, Ghassemya in Sharjah and similar schools in other Emirates.

Later on, some Arab countries sent delegations of teachers and built schools such as Kuwait, Qatar, Saudi Arabia and Bahrain.

Modern formal education started in 1952.

DIFFERENT STAGES OF EDUCATION .

1- General Education :-

- A- Primary Education : 4 years
(Schools following Qatar system: 6 years)

- B- Intermediate Education : 4 years
(Schools following Qatar system: 3 years and are called Preparatory Schools)

- C- Secondary Education : 4 years .

The whole period is 12 years like most of the Arab countries.

2- Technical education:-

A- Trade Schools:

This kind of education started in 1958 and was mere vocational at first . Its aim was to give training to the natives . There were no entrance requirements. Seven years later academic subjects such as arithmetic and English were introduced and period of study became four years instead of two.

After the Ministry had come into power it took over the Trade Schools and period of study was divided into two stages :-

Preparatory ; 3 years

Secondary : 3 years

Students should finish six years of general education before joining these schools.

There are courses in carpentry , electricity , mechanical engineeringetc.

B- Commercial Schools:-

The aim of these schools is to supply students with enough details about commercial and Secretarial work and to prepare them to hold clerical posts in their country.

DIVERSE STAGES OF EDUCATION

1- General Education :-

- A- Primary Education : 4 years
(School following Latin system: 6 years)
- B- Intermediate Education : 4 years
(Schools following Latin system: 7 years and six called preparatory schools)
- C- Secondary Education : 4 years

The whole period is 12 years like most of the Arab countries.

2- Technical Education:-

- A- Trade Schools:

This kind of education started in 1928 and was more vocational at first. Its aim was to give training to the natives. There were no entrance requirements. In later years later academic subjects such as arithmetic and English were introduced and period of study became four years instead of two.

After the Ministry had come into power it took over the Trade Schools and period of study was divided into two stages :-

- Preparatory : 2 years
- Secondary : 2 years

Students should finish six years of general education before joining these schools.

There are courses in carpentry, electricity, mechanical engineering.....etc.

B- Commercial Schools:-

The aim of these schools is to supply students with enough details about commercial and technical work and to prepare them to hold clerical posts in their country.

The standard here is similar to the secondary school. Academic subjects are studied such as languages, accountancy, book-keeping and typing.

C- Agricultural Schools.

The first attempt of introducing this type of education began in 1962. The Agricultural Secondary School was set up in 1967 to prepare agricultural technicians who can run farms or hold posts in agricultural guidance and Veterinary guidance. The period of study is four years after which the student gets the Diploma of Agricultural Secondary Schools. Academic subjects are taught at this school such as languages, mathematics, science, animal breeding, general agriculture, agricultural engineeringetc.

3- Religious Education :-

This embraces Primary, intermediate and secondary stages. This type of education pays special attention to religious subjects beside other academic subjects such as languages, mathematics, science.. etc.

4- Teacher training institutes :-

This institutes were established in 1966/67. Holders of the Intermediate certificate can join them, Period of study is four years after which graduates get Teacher training Diploma which qualifies them to teach at Primary Schools. These institutes have stopped registering students this year.

The Ministry is planning to set up Teachers' Institutes that take holders of G.C.E. There is also a plan to set up secretarial Institutes.

The standard here is similar to the secondary school. Academic subjects are studied such as languages, accountancy, book-keeping and typing.

C-Agricultural Schools.

The first attempt of introducing this type of education began in 1962. The Agricultural Secondary School was set up in 1967 to prepare agricultural technicians who can run farms or hold posts in agricultural guidance and Veterinary guidance. The period of study is four years after which the student gets the Diploma of Agricultural Secondary Schools. Academic subjects taught at this school such as languages, mathematics, science, animal breeding, general agriculture, agricultural engineering.....etc.

3- Religious Education

This embraces Primary, intermediate and secondary stages. This type of education pays special attention to religious subjects besides other academic subjects such as languages, mathematics, science, etc.

4- Teacher training institutes

This institutes were established in 1966/67. Holders of the Intermediate certificate can join them. Period of study is four years after which graduates get Teacher training Diploma which qualifies them to teach at Primary Schools. These institutes have stopped registering students this year.

The Ministry is planning to set up Teachers' Institutes that take holders of G.C.E. There is also a plan to set up coeducational Institutes.
