Emirates Union: The Struggle of Labor class Is Heightened.

A series of strikes stroke the A. Gulf especially within the foreign firms (Gulf Aviation mostly owned by B.O.A.C. & Bahrain and Oil Field, in Dubai.)

The odd Phenomena is that while the foreign accepted firms accepted some of the labourers demand such as raising the salaries, the clique govern

ment refused the campanays' offer on pretext that this will prove that labor class can realize its own demand by its struggle which encourages more strikes and that this will discourage foreign investments.

The government committee formed upon the strike of oil-field labourers instead of recommending labourers just demands, praised the discharge of 10 labourers and threatened to discharge more striking labourers.

Oman: British Clients Steal Peoples Belonging :

The clique government of Muscat has issued an order that citizens who belong date-palms in Jaalan province should pay 10 per cent of their harvest income in spite of economic stagnation due to government complete negligence although oil annual income is £70 million.

It is known that the government presence in Jaalan province was nill in the past. After the British Crowned Kaboos, the British and mecenary forces invaded Jaalan to enforce such unlawful decrees.

Bahrain: Is the peoples Lives So Cheap ?

The court in Manama fined Swedish expert, Ron Wekland, working with foreign firm (Alba) B.£250 for killing two citizens while driving drunk, as he confessed himself. He left the two vicims bleeding and drove away. It known that Mr. Weklund is a friend of the playboy Sheikh Khalifa Bin Salman (the premier) which is agood reason for Wekland to be released untouched.

Incr ased Armed Rebellion In Face Of Unholy Reactionary Alliance.

The imperialism leded by U.S. and the reactionary regimes in A.Gulf region are working hard to stop the popular revolutionary tide which threaten the imperialists interests and the reactionary regimes in this strategic region

Inspite of increasing repression and terror of the imperialists Yankees British and reactionary regimes, the revolutionary forces are carrying on their struggle and the popular masses are showing more discontent with the present situation.

In Iran the revolutionary organizations have been carrying armed insurrections which poses areal danger against the stability hardly needed for foreign domination of national wealth and monopolize labor forces.

During Nixon visit to Shah in a show of American hegemony on the region,

foreign firms looting of national wealth and monopolize labor forces. During Nixon visit to Shah in a show of American hegemony on this region, the revolutionary organization heightened its armed action where Nixon himself was a target of a timed bomb which was discovered by C.I.A. men few meters away of his stand .

The execution of four guerrillas in Khuzistan by Shah regime won't stop the popular tide.

In Bahrain, the labor class reply to the plot of the proposed false election and the reactionary constitution was more strikes especially in foreign firms such as Gulf Aviation and determination to boycott the election which pushed the client Shaikh Khalifa (the premier) to call upon people to be objective and not to boycott the election .

In Coastal Oman, strikes are in increase where the latest paralysed the U S. Oil field . The client ruler of Dubai retaliated by firing ten of the labourers and threatening to fire more.

The people realized the real motives behind the tribal fighting between Sharaka & Ajman where it became sure that British intelligence catalysed the fighting in order to interfere lately and prove the central authority of Sheik Zeid & the union .

In interior Oman several insurrection among the Sultanate Army troops took place in refusal of fighting the rebels of PFLOAG in Dhofar . These insurrections are continuation of civilian insurrection, and strikes perpetuating regularly in oil production areas and main towns .

In Dhofar province , the P.L.A. is realizing victories against the mercenaries lead by the British & Jordanian officer. The latest major battle of Murbat is a proof that P.L.A. can hit the enemy at its deep lines and clear the falseness of Muscat claims that the rebels are fighting from D. Yemen regions .

The peoples' resisting stand , the victories of P.L.A. against the enemy and the increasing content of the popular Iranian & Arabian masses is the block in face of the unholy alliance .
