

MEMORANDUM ON EXTENSIVE ARRESTS IN OMAM

With the Compliments of the revolution and struggle,

We wish to draw your attention to the serious situation in Oman following the extensive and comprehensive arrests carried out by the colonialist and reactionary authorities in Muscat and Abu Dhabi. The authorities in the Sultanate and the federation of sheikhs carried out hysterical arrest campaigns since December, 1972. The campaign is still at present going on and covered more than 200 detainees between religious men, merchants, students, workers, teachers, employees, soldiers, officers, peasants, shepherds and women from different areas of Oman.

These arrests came after the broad masses came out in the Sultanate of Qaboos to resent the Iranian-Qaboosite military agreement and Iranian presence in the islands of Kuria Muria, Dhofar, Muscat, Roos al-Jibal and the handing over to Iran of al-Ghanamisland. They also resent the increasing presence of Britain and Jordan and the extensive terrorism exercised by these colonialist circles against the people with their different classes and political and religious groups, as well as the increase of repression and police terrorism as Oman is in a state of martial law since the war of Jebel al-Akhhdhar where the citizens are being arrested and their houses demolished, properties confiscated and modesties outraged.

The people's wrath against the Qaboos rule also increased as a result of the ugly oppression and repression exercised by the rule and its Jordanian and British intelligence machineries against all tribes which reject the al-Busaid British regime and insist upon ending the harsh military agreement and checking off the old and new occupationists from the homeland. These movements by the broad masses find increasing repression from the Sultanate authorities in Muscat.

In the federation of sheikhs, the colonialist authorities intimidated the distorted federation to hand over the islands of Oman and to launch wide-scale arrest campaigns against the citizens and democrats after the coup attempt by Saqr al-Qasseni in February, 1972. While the sheikhs were celebrating their distorted federation, the masses expressed their national stand when all areas in North Oman witnessed extensive resentment campaigns against the continuation of the occupation of the islands. The masses staged roudy demonstrations which were faced by the puppet rule with wishful arrest campaigns against the citizens and honest national elements from different coastal areas and from different social groups and national and democratic affiliations.

The aut critics carried out these extensive and wishful arrests as part of the extensive imperialist and reactionary plan to re-arrange the area and join it with the Saudi-Iranian reactionary pact and to tighten the grip of colonialism and imperialism around the matters of affairs throughout the homeland. They cannot do that except after extinguishing the heightening nationalist movement in Oman which threatens the interests of the Sultans, sheikhs, reactionaries and imperialists. Emanating from this the British and Jordanian intelligence machineries carried out extensive arrest campaigns covering these social groups hitting against the wall all Arab traditions calling for the respect of religious men, women, Statelaws and humanrights which ban wishful arrests and barbaric methods of torture against the political detainees and their deprivation of all rights as political detainees.

Cont'd on page 2'.....

Moreover the colonialist authorities in Muscat launched these arrests to cover up their increasing failure in its military campaigns in Dhofar which did not succeed in realising their colonialist aims to repress the revolution. At a time in which they launch the extensive wishful arrest campaigns, they exercise in Dhofar extensive extermination war, economic isolation and extensive control around the citizens not only in the rural areas but also in all towns of Dhofar where barbed wires were built around the towns and imprisoned citizens and chained their freedoms in these towns.

At a time in which these colonialist authorities exercise such hysterical campaigns against the citizens, nationalists and progressives in Oman, they do not feel shameful to speak about democracy and freedom at a time in which they exercise ugly dictatorship against the masses, ban public freedoms, close clubs, fight students, workers, peasants intellectuals and nationalist tribal sheikhs, arrest everyone speaking about the colonialist situation in Muscat, ban all form of expression carried out by the workers to demand their legitimate democratic rights and impose dictatorship even on the men of religion who do not hesitate to call for the fight towards liberating Oman from the British and European and Eastern mercenaries in Oman. In front of these honourable stands the Qaboosite regime did not find but the way of torture and arrests. In the prisons they exercise ugly methods as the detainees face beatings and torture by electricity continuously and are made up to stand long against the wall with their hands up. Even the intelligence the Jordanian intelligence renovate their ways of torture against our people and destruction of their human dignity repeating continuously that they will crush the masses and revolution in Oman as they did in Jordan.

The extensive arrests also covered nationalist elements in the ruling family itself as Mohammad Taleb al-Busaid was arrested on the charge of belonging to the People's Front. Judges were also arrested at Rustaq along with tribal sheikhs in Ja'alan proving the expansion and spread of the people's wrath among the broadest sections and groups of the people. They also clearly prove the lies of allegations by the authority and fabricating rumours often repeated by the colonialist circles about the nationalists as being communists and agents.

The puppet authority wants to deface the reality of the situation lived by Oman under the puppet rule of Qaboos and the shameful political and military agreements concluded with Iran and Saudi Arabia, Jordan and Britain in order to make Oman a colony for the reactionaries and imperialists. This made the masses resent such act and rise up to defend the revolution and take part with all their groups and political organisations with the revolution against the colonialist regime in Muscat and Dhofar. These authorities want to hide the British and Iranian presence through fabrications about the danger of communism and atheism and other fictitious dangers alleged by the traitors to hide their national treasons.

The Qaboos regime wanted to secure the sympathy of Arab countries after signing the military agreement with Iran, handed over to it al-ghanan island and Kuria Muria, allowed the Iranian army to come down to Oman to fight the revolution and increased the presence of British officers and special divisions and puppet Jordanian intelligence brought to oppress the masses. In front of these treasons he did not find a justification for his treasons and strong hostility to the masses other than to allege fighting communism.

The puppet authority was not contented with such uncivilised and inhuman practices, but reached the extent of announcing in the second half of June, 1973 that it formed a court and tried a group of these honest nationalists. The place of this court and members of the court were vague and unknown, a thing which confirms the mockery of such a court and its unlawfulness.

In what the authority called the court, this approved the death sentence against ten nationalist militants and hard sentences were also passed by it against other members of the group forwarded to trial whose number reached 75. Such criminal practice carried out by the authority only reveals its fierceness and challenge to all human feelings and characters. It is in fact revealing its real face as a puppet and reactionary government not daring to commit the ugliest crimes against the Omani people in order to implement the plans of Anglo-American imperialism and the interests of the neighbouring reactionary governments.

We wish to draw your attention to the serious situation lived by our people in Oman under the al-Busaid rule and the federation of sheikhs and the bad conditions and inhuman treatment met by the political detainees and ask you to adopt fast and quick measures and to participate in the extensive resentment campaign against the Oppression of freedom in Oman and to halt wishful arrests, release the detainees and to suppress barbaric methods followed by the British and Jordanian intelligence to pull confessions by force from the detainees.

We also ask all Arab and international workers, jurist and student bodies and organisations to stand by the side of our people in Oman and to extend all required help to them in their just struggle against colonialism and police repression and restriction of freedoms and the ugly dictatorship followed against them. We also ask you to immediately interfere to save the lives of the political detainees and prisoners in al-Jalali and Abu Dhabi prisons and numerous other detentions spreading all over Oman.

Our people, who incurred great sacrifices throughout their glorious history against all forms of foreign occupation and against the dictatorship of the al-Busaid family and the federation of sheikhs, will continue their just struggle for ending the foreign occupation in their homeland and for finding and establishing national democratic regimes on their territories and to unite their soil fully confident that their just struggle will find increasing support by the peace and freedom-loving Arab brothers and friendly peoples, bodies and organisations. Please accept our combative wishes and remain the defenders of freedom and justice.

This shameless vanity and disguise for the simplest human rights are exercised by the authorities of hiredom in Muscat, in addition to preventing the citizens from visiting the detainees and placing the detainees in individual cells to exercise different physical and psychological torture against them to pull confessions from them.
