#### THE 'EANITC AND I DIC TIC'S OF THIS GREAT SUFFORT AND BACKING FOR THE STRUGGIF OF OUR PEOPLE

The extensive backing and support secured by the 9th June revolution and its combative tool the People's Front for the Tiberation of Chan from all Arab and world progressive and revolutionary forces on the occasion of the tenth anniversary of the revolution have had more than one indication and meaning.

At a time in which it proves remarkably the great and dear place occupied by the revolution of our people and the admiration secured by the struggle of this people within the ranks of these forces, that high place and that ad iration were a logical and natural result of:

- 1) the genuity of this revolution and and the truthfulness of its thesis and its dealfings with the groups from the Arab revolution and its alliesin the world
  - 2) The firmness ofour people and their determination and greatness of their sacrifices which prove the depth and stability of their belief in their cause;
- 3) The revolution of 9th June stand in a corbative and clashing trench to defend the territories of the Arabs and the ambitions and hopes of the Arab masses for dignity and freedom over their land; At the sale time this stand is regarded as a huge contribution in the revolutionary operation carried out bythe peoples fighting against imperialism, colonialism and reactionary forces for establishing the panels of justice and peace in our world.
- 4) The masses of the Arab mation and its matinal and revolutionary forces realise thoroughly well that backing and consodidation of the steadfastness and straggle of our Omani people is regarded as a sacred mational assignment i posed by the belief of these masses and their militant forces in their mational issues and objectives since our people are confronting the enemies who are endeavouring to deface the Arabish of this part of our homeland and its annexation to their enpire and are implementing part of the imperialist plan drawn up for our Arab homeland.
- 5) Our nation and its revolutionary forces realise that the liberation of Falestine, Eritrea, Arabistan, the Red Stream and other parts of the occupied Arab territories are linked organically with the question of liberation of Onan and the people of Chan. From this launching point came the greatness of the backing and support for the revolution of our people.

The revolution o 9th June highly addire such great stand by the forces of Arab revolution and at the sale time affire that expulsion of the great reactionary deperialist unity against our country which is imposed on our people and their national revolutionary brothers calls for further unity and gathering of the potentialities and energies of the revolutionaries and calls for more sacrifices. We are marching on this path with sincerity and deep revolutionary confidence.

The statement confirmed that such critinal exercises by the Phalangist Farty only done with the aim of hitting the unity which link strongly the Jebanese people and their national and progressive forces on one hand with the masses of the Falestinian recepte and their revolution on the other prior to hitting the national and progressive forces in Lebanon as a prelude teliquidate the Lebanese-Palestinian revolution in collaboration with the "ionist enemy in the same way as happened in Jordan in 1970 and prior to effecting the passage of the imperialist plan which wims at subjugating the Arab area and endorsing the

## ASSASSINATIONS AND ARRESTSWITHIN PANYS OF PROFINARY FORCES OF QABOOS

Following that over then which was implemented by our brave revolutionaries in usert, when they blasted cal-Wirami fort, the traitorous musert authorities were stricken with panic and great terror and accordingly have taken a series of repressive and terroristic measures against the masses of the people and within the ranks of its mercenary forces:

At the level of the masses, the authorities imposed (voluntary) curfew at night particularly in the capital. What does this mean?

heir intelligence elements spread propaganda within the ranks of the masses to the effect that the revolutionaries come out at night and that they may kill any citizen they meet. Foreover they say that the Sultants forces would open fire on any person roaning at eight o'clock at night thinking that he is one of the revolutionaries. Therefore, it is preferred not to roam in the streets of the town at night:

Lut at the level of the Qaboos forces, information state that there is an errest and dismissal campaign within the ranks of the Chani soldiers and officers as the authority believes in the presence of cells for the revolution in its army. Some sources say that these arrests and discussal have taken place following the assassination operation within the ranks of the Jordanian officers and mercenaries in the Qaboos forces:

However, the Caloos authorities started to get rid of its policy which call for attracting the tribal sheikhs and leading Cmani dignitaries as it recently terminated the services of two of these sheikhs. They are its ambassadors in Saudi Arabia and Algeria.

#### ONANI WOMAN CONDE'NS NEW CRISE OF SUSCAT RULERS

The Executive Council of the Chani Worken Organisation issued a statement on the atroicicus and ugly crime committed by the traitorous authorities in Muscat recently against Comrade Soud al) Marzooqi, herber of the Central Command and his three comrades. The statement expressed the condemation and deploration of the Chani woman against this crive: The statement said. Now learnt with great sorrow that the stooges in Muscat have executed their atrocious crime when the executed four citizens without informing their relatives of this and without handing over their corpses to their relatives. We ask the women organisations in the Arab world and the masses of Arab women to condemn such atrocious crime and to launch an extensive protest campaign for the release of hundreds of political detainees and to protest against the presence of Iranian, Pritish and Jordanian forces in Oman.

## CMANI YOUTH SHARE IN ARAB YOUTH CONGRESS IN TRIPCII IN LIBYA

The delegation from the Omani Youth Organisation left last hursday norming for the Tibyan Arab Republic to take part in the Arab Youth Congress in Tripli which will start on Saturday 5th July and continue upto 11th July.

This participation comes in response to an invitation from the Libyan \*rab Youth Federation to the Owani Youth Organisation:

It is to be recalled that these youth congresses are organised by the Arab League for the member states and as the Qaboos regime is sember in the Arab League, it will take part in these congresses. But the Orani Youth Organisation is one of the youth organisations which founded the Arab Yoth Federation which played a leading and vanguard role in affirming the unity of the Arab youth and the Orani Youth Organisation is reper in the Executive Committee of the Arab Youth Federation: Therefore its is very logical that the Omani Youth Organisation has the right to share in the Arab youth congresses and conferences as a legal representative of the Orani Arab Youth:

the puppet "aboos regime which petrayed the national cause of our people and conspired against the Aarabism of our homeland and people and tertured hundr ds but thousands of Opani youth, launched repressive laws which obstruct the youth roverent and chained their freedor this regime which was conderned by all Arab youth conferences and described it as traitorous and plo ter due to its traitorous and critinal exercises andacts, had lost finally any right or eny type of legitihacy for the representation of the youth: It also lost any right or ligitimacy to recresent our Chani youth. This fact has been realised by the Arab youth thoroughly well and in particular the Libyan Arab Youth Federation: From this launching point and sticking to the backing and support of the fateful issues of our gloricus 'rab nation, such a stand by the libyan Arab Youth Federation sterned which will certainly find every backing and support for its stands towards the rajority of the Arab Youth Federati ns believing in the defence of our interests and national objectives.

The Arab and foreign Students Federations in Bologne, issued a political statement in solidarity with the struggle of our Omani people. In these statements they praised and hailed the wonderful accomplishments of the 9th June revolution and the support and backing of Democratic Yemen and the progressive forces, a matter which led to the isolation of the puppet regime. The statements revealed the operation of fake and ingenuine independences followed by the Anglo-American colonialism as a means for preserving its colonial hegemony and its economic interests in the area of Oman and the Arabian Gulf. The statement also dealt with the plans of imperialism, British and merican, which aim at increasing the unity of the colonialist and reactionary forces against the militant Omani people and the other areas of the Gulf, a matter which called for the movement of the Jordanian forces with the aim of safeguarding the interests of imperialism in the oil and mineral wealths of the area.

## THE IRANIAN PEOPLE IN CONTINUOUS STEADFASTNESS AND COMBATIVE ESCALATION

The reactionary Shah-in-Shah authority in Iran and its ally American imperialism tried by all ways and means of repression to extinguish the popular revolution in Iran in order to enable the Shah's regime to play the role of striking force of world imperialism in the Gulf and the area and to make world capitalism continue looting the vast and huge wealths of the Iranian people. The Iranian people, through their long and deep struggle, exercised different forms of struggleincluding the political struggle which was led by Dr. Mussadaq at the head of the national Front and with the cohesion of the masses. He was the first to raise the slogan of oil nationalisation and four ht against the oil monopolies in the East. In 1951 the will of the Iranian masses was victorious and nationalisation of the oil industry all over Iran was announced. This great victory gave a new impact to the liberation strugglein the area. So the American Central Inteligence and British colonialism and local reaction moved to face this great current. Then after several conspiracies, the conspiracy of 17th August, 1953, succeeded and Mossadaq fell. .....10/.....

#### IRANIAN PEOPLE - Cont'd.

and a new chapter was started in the new history of the Iranian people ful of repression and bloody and savage exercises on one hand and massive struggles with different forms on the other. What happened in Iran following the coup of the American Central Intelligence in Iran is compared with what had happened in Indonesia and Chile. All that we say about tyranny, terrorism, collective killings and executions and imprisonments does not give a complete picture on what happened.

Reaction in Iran has very developed repressive methods but the people tried to make use of all contradictions and exercised different forms of struggle. At the beginning of the sixties, the circumstances and conditions were relatively paved for expressing opinion and in view of the self-contradiction suffered by the leadership at the time, a new phase of political struggle was renewed. But it was natural that its fate is failure. In June, 1963, while the open struggle and massive demonstrations were in their peak, the authority faced with unparalleled brutality in the new history of Iran which claimed thousands of toiling masses demanding their rights.

The 5th of June, 1963, was a point of junction in the history of the struggle of the Iranian people as it appeared to all that there is no need for the open political struggle and instead it is necessary to fight within the new detective repressive circumstances in a way conforming with theseconditions. The idea was crystalised and developed and so revolutionary groups came up which adopted the underground activity and the military political organisation as a launching point for it with each group working without the knowledge of the other. This underground activity continued within a periodof silence, but a silence which preceded the storm. In 1971 the armed struggle was created and continued and developed in prons andcons upto now.

The Shah-in-Shah authority and its repressive detective networks, did not leave any method for crushing the revolution but the self-contradictions emanating from its compradoric capitalist nature and from its fascist methods was a basic factor for the continuation and development of theliberation struggle in Iran.

Five years of the armed struggle and the revolution is continuing to exist, while the authority failed to uproot the roots of the revolution.

.....11/....

#### IRANIAN PEOPLE - Cont'd.

Five years of armed confrontation which proved the uselessness of any form of struggle other than the armed struggle. ive years of armed struggle which revleaed the face of the regime and its impeialist masters. ive years of armed struggle and revolutionary experiments which are regarded as a huge and essential accomplishment for the escalation of the liberation struggle in future. "ive years of armed struggle while the Iranian people are actually taking part - through armed activity - with the militant peoples in relestine and Oman for directing blows to "merican imperialism."

Five years of struggle and massive cohesion with the workers and toilers in continuation escalation of the struggle.

The Shah-in-Shah authority decalred the year of 1973, as a decisive year for crushing completely the armed revolution or as it said "the saboteurs". But the head of the joint committee for combating terrorism, General Taheri was killed at the hands of the revolutionaries. The sympathy of the masses with the revolution isincreasing and the backing of the revolution for the massive armed struggles including the workers and students strikes are practically interpreted. The flame that was lit by the masses and their revolutionary vanguards from the "Mujahedi People's Organisation" and the "People's Commando Organisation" will remain to be carried by themasses with the support and backing of the masses and cohesion with them and the will of the people will achieve victory.

It is worth to mention here as an example for the constant struggle of the Iranian people what happened in June this month as announced by the authority. Since following the execution of the two emerican advisors at the endof May which was carried out by the revolution ries of the "Mujahedin of the Iranian people" in protest against the increase of the emerican influence in Iran, and in retaliation for the killing of nine revolutionaries in the prison, the authority confessed the holding of a huge massive demonstration which took place at "Qum" town in South Teheran. In this town there exists a huge religous university similar to al-Azhar. Hundreds of progressive teachers and tsudents from this university are now existing in the prisons and detentions due to their national stands and their support for the armed revolution.

Several months ago one of the teachers, who was a leading religous man named Ayatallah Ghafari, was killed under torture.

## IRANIAN PEOPLE - Cont'd.

In an extensive arrest campaign which took place months ago, hundreds of religious men were taken to prisons for torture. On 5th June, during the aniversary of the uprising and massacre of 1963, roudy and huge demonstrations took place to express the indignation of the mases against the measures of the authority. The authority confessed that three persons were killed and after extensive search many have been arrested and weapons were found along with explosives and leaflets hostile to the regime in the

The Shah does not know how to justify the alleged internal stability to his imperialist masters. He is always attributing such operations to foreign forces or Red reaction or Black reaction meaning with the first the revolutionary organisations and the second the nationalist religious men.

# MERCENARIES OF PUPPET HUSSEIN THEIR REALITY

After the mercenaries of puppet Hussein have ransacked Amman following the benevolent resistance by the forces of the Palestine revolutin what have they done? They ransacked al-Ashrafiyah hospital andhit the patients andwounded with truncheons upto death. They have also cut the fingers of the Palestinian children so that in future these dono carry the Klashinkov. They have also erected the tank and field guns andhit the caves of the refugees in the Windat and when a missile hits a cave with its occupants the henchmen shout "God is Great" as if they are in a fight against the "ionist Israeli enemy. They have also outraged the modesty of the Ammani women to prove their manhood, and masculine gender.

There is nothing strange in this as the British and their lackeys in the kingdom of puppet Hussein have brought this army not for waging a national struggle at any day, but to be like an army of henchmen. This army is nothing but a scump of mercenaries who possess not a fraction of Arabism or Islam andnothing of manhood as those who escaped during the June war and abandoned their people and military weapons and crossed River Jordan in a stampede are not an army but mere mercenaries.

#### STAT MENT ON:

# ASLASSIMATION BY MUSCAT AUTHORITIES OF SOUD AL-MARZOOGI AND HIS COMRADES

The People's Front for the Liberation of Oman issued a statement on the ugly and atrocious crime committed by the traitors of Muscat when they implemented the death verdicts against heroes Soud al-Marzooqi and his three other comrades. The statement says: "The Muscat authorities have implemented their savage crime against Comrades:-

Soud al-Marzooqi, Mansoor Sarhan al-Hanai, Saeed Juma'ah al-Ghelani and Mohammad Hasson Makki.

The death verdicts were executed against the four heroes in the second day after the fictitious trial without the hireling authorities announcing about the implementation of such verdicts.

he puppet authorities in Muscat found themselves isolated by the Arab and world public opinions which clearly demonstrated opposition to the harsh death verdicts and asked for the suspension of the massacre against the members of the Omani people. Messages have also poured on the Muscat Government askingit to stop its crime. Several other organisations including the Arab Jurists Organisation asked for permission for a delegation from it to visit Muscat. The International Amnesty Organisation had also below asked Qaboos to stop his crime. So the puppet authorities in Muscat found themselves in front of strong opposition by the Arab and world public opinions against the implementation of the death verdicts. But the henchmen of the Omani people and occupationists of the Omani land and terrorists and repressors of peoples and their pupets in Muscat who cherish retaliation from the Omani people, hastened to execute the four heroes who fell in the captivity of the henchmen and executed against them the death verdicts.
