MESSAGE FROM THE CHAIRMAN

The going on stream of our Shuaiba Refinery in 1968 can be considered a land-mark in the further expansion of the Kuwait National Petroleum Company in the international oil business. In a sense, this event signals Kuwait's arrival into the modern, complex and competitive industrial era.

As expected, the start-up of a complex refinery, such as ours at Shuaiba, was associated with mechanical problems. These mechanical problems were handled by our staff and with the assistance of the contractors. It should be pointed out that these problems caused delays in the operation of certain major refinery units with the consequent result of an impact on revenues from our international operations. These major units will go on stream in the course of 1969.

The first shipment of products from our Shuaiba Refinery to overseas customers was moved on 9th May, 1968. Our customers in different parts of the world are receiving products in a satisfactory manner.

I am delighted to report that 1968 witnessed solid progress towards ensuring ready sources of crude for KNPC operations. This has come about through the granting of a Concession to KNPC (K.S.C.) and Hispano de Petroleos, S.A. (Hispanoil) by the Government of Kuwait to explore and exploit oil within the State.

It is also gratifying that our sales of main petroleum products within the State of Kuwait registered another banner year.

Your Management is endeavoring consistently to promote the capabilities of our Company in a manner which would facilitate the further expansion of KNPC in the oil business. These efforts are strengthened by the continued support of the Government.

Ahmad Sayed Omar
Chairman of the Board of Directors.

REPORT OF THE BOARD OF DIRECTORS OF THE KUWAIT NATIONAL PETROLEUM CO. (K.S.C.) FOR THE YEAR ENDED 31ST DECEMBER 1968

To : The Shareholders of KNPC.

Gentlemen,

We are pleased to submit a review of the operations of the Kuwait National Petroleum Company for 1968 together with the related financial statements.

At the Ordinary General Assembly held on 5th May, 1968, the following gentlemen were announced to have been appointed by H.E. the Minister of Finance & Oil as Board members representing the Government, in compliance with Article 13 of KNPC's Articles of Association : -

1. Ahmad Sayed Omar
2. Abdul-Rahman Sultan
3. Sa'doun Al-Jasim
4. Ashraf Lutfi
5. Ahmad Al-Mutair
6. Ibrahim Yali Ahmad

At the same meeting the following gentlemen were elected by shareholders as Board members representing the private sector for a three-year term of office : -

1. Fahad Al-Dabbous
2. Sulaiman Al-Ghuaim
3. Sulaiman Al-Fouzan
4. Abdulla Isa Al-Saleh

Following the General Assembly, the new Board of Directors

re-elected Mr. Ahmad Sayed Omar as Chairman and Managing Director. Mr. Sulaiman Al-Fouzan and Mr. Abdul-Rahman Sultan were elected as Deputy Chairman and Deputy Managing Director, respectively.

The Kuwait National Petroleum Company (K.S.C.) and Hispania de Petroleos, S.A. (HISPAANOIL) were granted by the Government of Kuwait a Concession for exploring and exploiting petroleum within the State. The Concession, announced on 6th May, 1968, (Law No. 21, 1968) covers an area of about 9100 sq. kms., relinquished by K.O.C. in 1962. KNPC holds 51% and HISPAANOIL 49% interest in the joint venture.

On 16th June, 1968, an Operating Company, Kuwait Spanish Petroleum Company (KSPC) was incorporated. The Board of Directors of this Company is composed of the following gentlemen : -

Abdul-Rahman Sultan	Chairman
Luis de Reyna	Managing Director
Fahad Nayif Al-Dabbous	Deputy Managing Director
Ahmad Abdul-Mohsin Al-Mutair	Director
Abdulla Al-Issa Al-Saleh	"
Juan Jose Bernat	"
Enrique Dupuy	"
Alejandro Garcia Fernandez	"

Two meetings of the Board of Directors were held in 1968. The first meeting took place in Kuwait on July 20-21, 1968. The second meeting was held in Madrid on October 24-28, 1968.

Work on Company organization and staffing proceeded during the last half of 1968. An Office was opened in the Chamber of Commerce and Industry Building in Kuwait.

Tenders were put out for geophysical surveys in K.S.P.C. Concession. The land seismic survey was awarded to the French Compagnie Generale de Geophysique. The survey is scheduled to start in early 1969.

Initial drilling work is expected to be started in late 1969.

Your Company's growth and progress are the result of the contribution, loyalty and effort of KNPC employees and the interest and support of its shareholders and customers, which we greatly appreciate.

We hope that the following pages will reveal clearly the progress KNPC accomplished in 1968 and the trail of expansion it is pursuing.

CAPITAL AND SHAREHOLDERS

The following Table shows the situation of Share Capital (K.D. 15,000,000), number of Shareholders for the period 1961 to 1968 and payment of calls-on-shares :

Year	Capital K.D.	Percentage of Called Capital	Paid Capital K.D.	Unpaid Capital K.D.	Number of Share- holders At Year End
1961	7,500,000	25	1,873,631	1,369	3,585
1962	7,500,000	50	3,613,069	136,931	3,145
1963	7,500,000	50	3,748,961	1,039	2,903
1964	7,500,000	100	7,337,074	162,926	2,736
1965	7,500,000	100	7,481,736	18,264	2,664
1966	7,500,000	100	7,499,927	73	2,616
1967	15,000,000	100	15,000,000	—	4,913
1968	15,000,000	100	15,000,000	—	4,773

PLANNING

ECONOMICS

Economics performed its regular activities by giving advice, preparing reports and studies on matters affecting the operations of the Company. In some of these activities, Economics cooperated with other Departments in order to achieve the best aims of the Company.

The Research Library increased documents and books of interest to the Company activities.

EXPLORATION

Exploration, in 1968, gathered geological data and continued routine studies and mapping throughout the year.

PERSONNEL

TRAINING AND

SCHOLARSHIPS

Thrift and Retirement Plan for Kuwaiti employees and Thrift Plan for non-Kuwaitis (other than western expatriates) are being developed.

Training activities in 1968 were strengthened and expanded to cope with the increasing needs of the Company. A new Training Centre is under construction and it is anticipated that full scale training will be operational in 1969.

The number of Kuwaiti students sponsored by the Company for the academic year 1968-69 totalled 32.

MANPOWER.

The following Table shows the rate of growth in manpower :

MANPOWER 1.6.1961 to 31.12.1968

LOCAL MARKETING

**LOCAL SALE
OF PETROLEUM
PRODUCTS**

The total value of sales of main products amounted to 122,147,792 Imperial Gallons, representing an increase of 3,973,442 Imperial Gallons or 3.36% over sales for the previous year.

The following tabulation presents a comparative analysis of sales of all products marketed locally, together with percentage change in volume of sales in 1968 over 1967.

	1968	1967	% Change 1968/1967
Gasoline	85,915,060 I.G.	79,232,544 I.G.	+ 8.43
Kerosine	10,907,035 I.G.	11,614,728 I.G.	- 6.09
Gas Oil	23,325,697 I.G.	27,327,078 I.G.	- 7.32
Outboard Motor Fuel	4,354 I.G.	5,523 I.G.	-17.54
Lube Oils	262,550 I.G.	235,615 I.G.	+11.43
Bitumen	30,163 Tons	35,809 Tons	-15.77
Residual Oil	1,267 Tons	3,323 Tons	-66.87

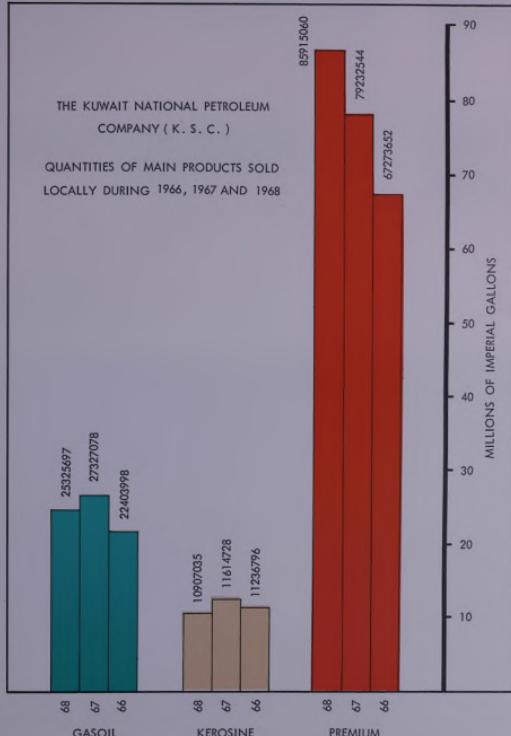

**NEW PROJECTS
COMMISSIONED**

The Failaka Island filling station was commissioned on 6.1.1968, and the total annual throughput amounted to 270,783 Imperial Gallons, representing a daily average sale of 750 Imperial Gallons.

Shuaikhi Industrial Area complex was completed in April 1968, and Technical Services Workshops, Materials and Lubricants groups are now accommodated in spacious environment with appropriate technical facilities.

THE KUWAIT NATIONAL PETROLEUM COMPANY (K. S. C.)

QUANTITIES OF MAIN PRODUCTS SOLD LOCALLY DURING 1966, 1967 AND 1968

CONSTRUCTION**IN PROGRESS****FUTURE****CONSTRUCTION**

Two conventional type filling stations at Salmiyah and Adailiyah were under construction together with three of a smaller type at the Neighbourhood Centre at Fayha, Qadisiyah and Da'iyah. It is expected that these five installations will be commissioned by the end of the first quarter of 1969.

Panoramic View of Shuaiba Refinery

The Company plans to build five more stations during 1969, similar in type to those mentioned above, and at locations where they will be most useful to both the private motorists and the owners and operators of a heavier type of transport.

KAFCO

The Kuwait Aviation Fuelling Company (K.S.C.), in which we hold 80% of the shares, continues to make good progress. Total sales of all products in 1968 amounted to 17,399,340 Imperial Gallons, showing an increase of 22.5% over the sales for the previous year.

The cost of obtaining supplies of products was much higher than in previous years but, in spite of this, the net profit rose by 18.6%.

REFINING

SHUAIBA REFINERY

During 1968, construction of the KNPC Shuaiba Refinery was complete and most of the Refinery process units were placed on stream.

During the year, as construction of the individual process units was complete and the mechanical work accepted by KNPC, the units were checked out fully by KNPC staff and were put into operation. The last unit completed was the Isomax. Refinery construction was then complete and the final startup phases were entered.

Crude oil was charged to the Crude Unit in the middle of April. This occasion was marked by a ceremony attended by His Excellency the Minister of Finance and Oil.

All product shipments were met during 1968, representing an accomplishment through the combined efforts and cooperation of the Refinery staff, other Departments of the Company and contractors.

A project for extending the Refinery's storage capacity by 1,500,000 barrels was approved during the year. Detailed engineering has been carried out by the Refinery staff and most material and equipment orders have been placed. A plot of land to the west of the Refinery area has been allocated by the Shuaiba Industrial Development Board. This project will permit the Refinery to operate with a greater degree of flexibility, therefore reducing manufacturing costs, and will also provide greater flexibility in the marketing programme.

The Refinery staff consist of 826 personnel at the end of the year. These personnel represent 31 different nationalities. Re-

Control Room at Shuaiba Refinery

cruiting efforts continued throughout the year to complete staffing and, in particular, Refinery operators with previous refinery experience to staff scheduled unit positions. Since startup, trainee operators have been trained and promoted to a number of operating positions.

UMTALI REFINERY

The Umtali Refinery at Feruka Valley, Southern Rhodesia, remained inoperative during 1968. All Participants, including KNPC, continued refraining supplies of crude oil to the Refinery, in compliance with the decision of the Security Council of the United Nations to place an embargo on all oil shipments to Southern Rhodesia.

INTERNATIONAL MARKETING

International Marketing Department is composed of a team of fifty individuals, coming from thirteen different nationalities and are conversant in a wide range of languages. This diversity in nationality and language facilitates communications with KNPC's customers throughout the world. The staff includes Kuwaitis who are directly engaged in international marketing of petroleum products.

The year 1968 will go on record as an historical year for KNPC. The first shipment of products from the Shuaiba Refinery moved aboard the "Mosduke" — a KNPC long chartered vessel — on 9th May, 1968. Ever since, our customers in the Far East, the Middle

Loading Ships with Shuaiba Refinery Products to Various Parts of the World

East and Europe have been receiving Shuaiba products satisfactorily. KNPC products are now being sold not only in cargo lots but also in small parcels to smaller customers ex-terminal tanks by our subsidiaries.

Several new contracts were concluded during 1968. These vary in length up to five years. Thus, assurance of outlet has been kept well-balanced with planned output for years to come. An important contract has been concluded with another national oil company, Pertamina of Indonesia. This contract, in addition to being mutually attractive, is a pioneer step in enhancing cooperation between national oil companies.

1968 marked KNPC'S entrance into the international bunkering business. The organization of an efficient bunkering group to service an international network of bunker ports where service and efficiency are of paramount importance has been achieved successfully. KNPC's bunkers are now readily available in numerous ports in Europe, the Middle East and the Far East.

Two new subsidiaries of KNPC (KSC) were incorporated in Kuwait. Firstly, KNPC Far East (KSC), whose registered branch in Japan acts in a liaison capacity and, in conjunction with the sales activities carried out by International Marketing, is responsible for the administration of sales of KNPC's products in Japan. Additionally, the branch of this subsidiary is responsible for obtaining market intelligence in that area. Secondly, KNPC Trading and Transport (KSC) has as its main function the handling of certain international sales and product exchange transactions.

KNPC (UK) Ltd., as well as KNPC A/S in Denmark, have been actively engaged in sales and deliveries of products ex their tanks.

KNPC acquired a new trade mark during 1968. Registration of this trade mark has been applied for in about 20 countries. The original trade mark will be retained for use in Kuwait only.

KNPC has become established during 1968 as a truly international company. Shuaiba products are being consumed throughout the world. Acceptance of KNPC as an independent company by both large and small consumers as well as international oil companies is a notable achievement.

FINANCE

Development of international operations has been the major feature affecting the finances of the Company during the year 1968.

Shipment of petroleum products commenced on 9th May, 1968 but delay has occurred for various mechanical reasons in the start-up of certain major units at the Shuaiba Refinery, which are essential for the proper development of our international trade in petroleum products.

The Directors have considered it appropriate to account income and expenditure from such transactions in a Refinery Development Account which shows a net debit balance, as at 31st December, 1968, of KD. 4,813,285.

As mentioned elsewhere in this report, it is expected that the difficulties at the Refinery will be overcome during 1969. Further development expenditure will therefore be incurred in 1969 and the accumulated shortfall to be carried forward on this account cannot be determined until the units are eventually commissioned. In order to finance this expenditure, the Directors consider it advisable to set aside to a Development Reserve Account a sum equal to the balance on the Refinery Development Account. This has been made up by the transfer of KD. 4,813,285 from General Reserve. This transfer will require the approval of the Shareholders. When the final amount of the Development Account is determined, it will be written off over periods considered appropriate.

No doubt the Shareholders will appreciate that the substantial long-term investment required for expansion of international operations and development of the Shuaiba Refinery are making very heavy demands on the cash resources available to the Company.

Therefore, and in order to meet these investments, the Board of Directors proposes that no dividends be paid to the Shareholders for the year 1968 ; similarly, it proposes non-payment of Directors' fees for the same year.

SULAIMAN AL-FOUZAN
Deputy Chairman

AHMAD SAYED OMAR
Chairman & Managing Director

REPORT OF THE AUDITOR TO THE MEMBERS OF THE KUWAIT NATIONAL PETROLEUM CO. (K.S.C.)

I have examined the balance sheet of the Kuwait National Petroleum Company (K.S.C.) as at 31st December, 1968 and the profit and loss account for the year then ended, together with the notes thereto. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and other auditing procedures as I considered necessary in the circumstances. I have obtained all the information which I considered necessary for the satisfactory performance of my duties.

In my opinion the accompanying balance sheet and profit and loss account, together with the notes thereto, agree with the books of the Company and :—

- (i) Contain all that is required by the Law and the Articles of the Company.
 - (ii) Give a true and clear view of the financial standing of the Company.
- In my opinion :—
- (i) The Company has kept proper books of account.
 - (ii) Stock-taking has been duly carried out.
 - (iii) The information contained in the Directors' report regarding the accounts is in agreement with the books of the Company.
 - (iv) So far as such information was available no violations of the Law or Articles of Association which had an adverse effect on the business of the Company or its financial position, have occurred during the year.

H. G. ISAAC, F.C.A.
REGISTER OF AUDITORS No. 42, KUWAIT
OF WHINNEY MURRAY & CO.
CHARTERED ACCOUNTANTS

Kuwait, 25.3.1969.

ACKNOWLEDGEMENT

We wish to express our deep thanks to H.H. Shaikh Sabah Al-Salem Al-Sabah, Amir of the State of Kuwait, for his kind attention and encouragement. We would like to record also our appreciation to H.H. the Heir Apparent and Prime Minister for his everlasting support to the national economy and to H.E. the Minister of Finance and Oil for his kind attention and support. Our thanks are also due to the various State Ministries and the Shuaiba Industrial Development Board for their valuable assistance in furthering the interests of the Company on every occasion.

Board of Directors
