Political Statement by the People's Front for the Liberation
of the Occupied Arabian Gulf

"AFTER HARD LABOUR IMPERIALISM GIVES BIRTH TO PERISHABLE CHILD
CALLED FEDERATION OF AMIRATES"

Struggling Masses,

In order to define the strong strategic signs of British imperialism which, through long and continued occupation, dominates our Gulf and which signs appear in the form of modern tactics suiting the wild crowds of our exploited masses as a planned counter-reaction we must attribute these new methods of colonialism to its historical background in a rough talk about the total events which took place in the form of plans carrying formulas containing stupid treaties for protection prior to the establishment of direct military occupation like cancer which spreads and develops by the time in the body of the living organ.

The establishment and strengthening of occupation influence in our land came as a logic result of the policy of preserving the present situation which will give it an increase in the sole domination and ensure its economic influence in the first place such as exploitation and looting of crude oil, finding closed markets for disposing off its consumer materials and ensuring political and military strategy in the world through our strategic waterways and skies exploiting for such policy cartoon frontings in the front of tribal and feudal leaderships which release from their glands the rotten odour of penetrated reaction and sheer stupidity. They are those who are called today the Sultans, Amirs and Sheikhs of Oman and the Arabian Gulf.

Our Struggling Masses,

While we see today the collapse of British imperialism in more than one region under the heaviest blows of our miserable masses, we must rely on one fact e.g. that this old imperialism is no more capable alone outside its territorial boundaries to protect its categorical interests as its duality with American imperialism is a natural thing to them warranted by the unity of the colonialist interests within an economic, political and military plan to reinforce the influence of the Empire of World imperialism by various mean designs to humiliate peoples and loot them their plentifulness and freedoms.

Our Struggling Masses,

What is going on today in our Arabian Gulf is nothing new as it is a continuation of a chain of a collection of hostile plans which Anglo-American imperialism endeavoured to establish on our revolting Gulf since the thirties when oil was successively discovered in areas in the Arabian Gulf in attractive quantities. The new chain in the colonialist policy is what is called the Federation of Amirates, the perishable and weak colonialist creation which will not stay longer in front of the determination of the exploited crowds in their sacred march towards the complete ousting of the colonialist cliques on our land including sultanic feudalism, Amirs and Imams through enlightened revolutionary violence (armed struggle), the only language which will create the prosperous future of the exploited popular masses under the leadership of the alliance of the poor workers, fishermen and peasants, and revolutionary intellectuals towards the horizons of freedom, democracy and scientific socialism.

These reactions in the colonialist policy came as a result of the daily lessons given to it by the guns and blood from the fields and mountains of Dhofar under the leadership of the People's Front for the Liberation of the Occupied Arabian Gulf which completely rejects such fake forms of stage play and will fight them to the end keeping the popular masses and their revolutionary vanguards in front of their historical responsibilities.

To evade talk about whether this federation will succeed or not, it is wholly and totally a new game created by the colonialist and monopolistic policy to hide the seriousness of conflicts and to absorb the people's wrath which will make its own history despite all colonialist designs, as through the armed revolution and basic enlightenment of the broadest exploited masses we can free our area of all existence of Anglo-American colonialism and its puppet monopolistic groups.

Our struggling masses,

Necessity calls upon us to understand the existing reality of the policy of imperialism on our Arabland. What is going today on our Palestinian territory is only one of a chain of plots against the Arab national liberation movement all over the Arab arena. The mean conspiracies weaved from the inside to extinguish the blazing revolution of the Palestinian people and designs made in our struggling Gulf to create a weak form of protection for the colonialist monopolistic interests are only part of a unified plan of world imperialism to hit the popular revolution in Palestine and the Arabian Gulf. The Anglo-Americans who move the chess pieces in the Gulf and try to merge them in a fake federation to confront the armed revolution in the Arabian Gulf are those who are now instigating the reactionary regimes to hit the revolution of our Arab people in Palestine. The People's Front for the Liberation of the Arabian Gulf calls upon Arab and world progressive forces to declare complete rejection of the federation of the kings and petrol and the masters of Trost in the Arabian Gulf. It also declares complete rejection of all middle solutions for solving the issue of the Arab people of Palestine and condemns the methods of mediation and political tricks.

Masses of our Great People,

The fake federation is a federation of colonialist monopolistic companies and a federation of feudalistic sheikhs and amirs who are absorbing the blood of peoples. It is a repeated version of the fake federation of Southern Emirates which was rejected by our people in the brave Yomoni = South and toppled down by the force of arms under their vanguard organisation the National Front. Today we see the same trumpets which have beaten for the "killed" federation are beating now for the federation of Gulf Emirates with a big increase in the number of trumpets due to the plentifulness of oil dinars spent on buying more trumpets to beat for this federation.

Our toiling masses,

The People's Front for the Liberation of the Occupied Arabian Gulf, which represents the ambitions of the revolutionary masses in the Gulf now raises in your name its voice high and declares to the world public opinion that it will direct the gun against the fake federation and condemn it to death.

It will consider recognition of this federation as betrayal of the progressive Arab revolution and calls upon all progressive and socialist forces and Arab and world national democratic liberation movements not to recognise the fake federation of Gulf Emirates and to condemn it openly and firmly.

Long live the revolution of 9th June, 1965 under the leadership of the just front which fights imperialism, Zionism and all liquidatory plans. Let the flag of the unity of the national democratic and socialist forces in the world be raised high and down with the flags of the traitorous imperialism and reaction.

Political Bureau of the General
Command of the People's Front for the Liberation of the
Occupied Arabian Gulf.

Issued on 28th October, 1969.

Political Statement issued by the Popular Front for the
Liberation of the Occupied Arabian Gulf on

HOSTILE MOVEMENTS BY SAUDI REACTION

The conflict at this stage is between the toiling broadest Arab masses^a and their nationalist and progressive forces on one hand and between the forces of imperialism, Zionism and their classical allies of local reaction on the other hand. This conflict is resembled in different forms of military, political and economic and psychological warfare all over the arena of the grand Arab homeland.

Through the long historical stage the imperialists and their puppets devote all their power for breaking the unity of this nation and for absorbing their personal power and exploiting their economic wealth by encircling them with hostile military bases and creating reactionary entities and regimes to realise constant control and influence over all the wealths of this nation and to prevent this nation from realising its ambitions for freedom and progress.

Masses of Our Great People.

The hostile crowds expand in size and their near and remote horizons become clear and both conflicting parties stand in the field openly. Today the broadest deprived Arab masses stand on one side and the classical enemies of imperialists, Zionists and all Arab reactionary regimes topped by the Saudi Kingdom on the other. The progressive forces launch hot struggles at this stage in Palestine and the Occupied Arabian Gulf to liberate these Arab areas from imperialism and Zionism. In return the Anglo-American imperialism, Zionism and their reactionary allies launch counter military campaigns in a bid to topple down the revolutionary regime in Democratic Yemen under the leadership of the National Front and to create political conspiracies with the aim of liquidating the revolution of 26th September in Northern Yemen. They along with their allies the Sultans, and Amirs launch wide scale campaigns to hit the revolution in the Arabian Gulf and undertake extensive arrests of progressive groups and clear them physically under the slogan of fabricated accusations. What happened and what is happening now in Najd, Hejaz, Kuwait, Bahrain, Muscat, Oman and Dhofar and the entire Arabian Peninsula of extensive terroristic campaigns carried out by the puppet reactionary repressive machineries of Anglo-American colonialism are only one of a chain of hostile conspiracies. The prisons of reaction and colonialists in the Arabian Peninsula are full of honourable members of our great people.

...../Masses of.....

Masses of Our Great People,

The puppet Saudi oil kingdom of Anglo-American imperialism is launching these days a military campaign against Democratic Yemen with the aim of annexing it to the American petroleum monopolies which are continuing to exploit and loot the wealths of Najd, Hejaz and the Arabian Gulf. These serious conspiracies are magnifying the principles of present Saudi regime since its establishment to serve its imperialist masters.

The People's Front for the Liberation of the Occupied Arabian Gulf deplures these hostile campaigns and condemn them and regard Wadi'ah, Sharoorah, Najran and Aseer as part and parcel of the Yemeni territories for which our people incurred ~~xx~~ great sacrifices to liberate.

The People's Front regard these Saudi conspiracies as part of the imperialist strategy which is hostile to the course of Arab progress and intend to absorb the capabilities of the Arab forces on the path of struggle against Zionism and imperialism.

Masses of our struggling people in the Arabian Peninsula,

The Saudi Arabian Kingdom stands as an obstacle on the way of our liberation and freedom in Najd, Hejaz, Yemen, Arabian Gulf and all Arab countries and conspire against our fate and opens our homelands for the imperialists to loot them and top the local classical forces hostile to progress.

The progressive and nationalist forces all over the Arabian Peninsula, must realise that their historical mission is to topple down the puppet Saudi regime.

The People's Front for the liberation of the Occupied Arabian Gulf appeals to all toiling masses to unite and combine their activities against this regime and calls for resistance in the face of its conspiracies.

Long live the struggle of the revolutionary masses in the Arabian Peninsula and long live our struggling Arab nation.

Down with all puppet reactionary regimes, imperialism and Zionism.

Issued by the People's Front for the Liberation
of the Occupied Arabian Gulf.
