Date: July 15th, 1974 VOL. 2 No. 96-7

Arab League Responds

According to an official source of the P.F.L.O.A.G. Office in Aden, the Arab League commission for fact-finding on the Iranian intervention and British presence in Oman adopted recently a decision on visiting the liberated area to sit with the P.F.L.O.A.G. with the aim of discussing the situations in Oman.

It worths recalling that a message was last month extended by the P.F.L.O.A.G. Central Executive Committee to the Commission on the P.F.L.O.A.G. preparedness to receive the Commission and to furnish it with all documents and information condemning the puppet colonialist rule and the Iranian invasion.

Arab League Committee Gets off to a Good Start King Hussein Escalates His Interference Against Our People

Puppet Hussein paid a lightning visit to puppet Qaboos during the past week. During this visit both puppets met at the

palace of the latter in Sallahah where their discussions dealt with the new criminal step which must be taken by the two regimes against our people.

The representative of the P.F.L.O.A.G. in Aden issued the following statement:-

King Hussein arrived in Sallahah and met Sultan Qaboos. This surprising and undeclared visit came to put anew the interference of the puppet authority in Jordan against our militant people in

Oman.

"It has been announced by puppet Hussein himself months ago the formation of a properly selected division from the brigades of the Jordanian army should be attached to the mortar unit which is fighting by the side of the Iranian invaders in Dhofar and to be added to the clientele of Hussein in the intelligence who shed the blood of the Omani people and suppress the citizens.

At a time in which some of the Arab countries, by good-will, are trying to end the Iranian and Jordanian interference, puppet Hussein is escalating the Jordanian interference against the Omani people.

The People's Front for the Liberation of Oman and the Arabian Gulf resents such visit and regards it as a challenge to the will of the Omani people and the Arab people.

EDITORIAL

Those attempts being made by some quarters in the Arab League's fact finding Committee on foreign presence and interference in the Sultanate of Oman are no more secret. These attempts aim at deviating the Committee from its assignment and to confine this assignment within the framework of listening to the view point of the puppet regime in Muscat and at forging and twisting the stand of the People's Front for the Liberation of Oman and the Arabian Gulf towards such issue in its capacity as one of the parties in the dispute.

The People's Front, at a time in which it affirms its admiration and respect for the resolution of the Arab Foreign Ministers Council during its session which was held in Tunis last March and which in its opinion expresses Arab feeling of the national responsibility towards an Arab party which is being subject to an expansionist invasion similar to that faced by the Palestinian homeland, and as a result of the feeling for the national responsibility towards an Arab people facing a campaign of attrition at the hands of colonialist and invading forces, is not prepared to keep quiet over any bid being made to exploit such a national situation which comes in harmony with the objectives and principles of the revolution of 9th June. This bid is also aimed at bouncing on the revolution, encircling it and restricting it within the circle of settlements which some sides are trying to draw ignoring by that the great and dear sacrifices incurred by our people and ignoring the dangers which surround

Irish Revolution & Our People's Struggles Gaining Ground

The People's Front for the Liberation of Oman and the Arabian Gulf received a message of greeting on the occasion of the ninth anniversary of the immortal revolution of 9th June from one of the clandestine groups of the Irish revolution which operates in London.

"THE PEOPLE'S DEMOCRACY (LONDON UNIT) SENDS FRATERNAL GREETINGS TO THE COMRADES OF THE PEOPLE'S FRONT FOR THE LIBERATION OF OMAN AND THE ARABIAN GULF ON THE OCCASION OF THE NINTH ANNIVERSARY OF THE COMMENCEMENT OF MILITARY OPERATIONS TO LIBERATE THE GULF FROM THE FORCES OF FEUDAL-IMPERIALIST ALLIANCE.

THOUGH PEOPLE'S DEMOCRACY SUPPORT ALL POPULAR ANTI-IMPERIALIST MOVEMENTS, WE FEEL A PARTICULAR AFFINITY WITH P.F.L.O.A.G. FOR THEY ARE SUCCESSFULLY COMBATING THE SPECIAL AIR SERVICE REGIMENT WHO HAVE BEEN THE PERPETRATORS OF MANY ACTS OF BARBARITY IN IRELAND DURING THE PRESENT 'WAR OF NATIONAL LIBER-

ATION. PEOPLE'S DEMOCRACY WILL ENDEAVOUR TO THE BEST OF ITS ABILITY TO PREVENT THE EXPORT OF THE SKYVAN TRANSPORT AIRCRAFT USED BY THE SAF AND MANUFACTURED IN THE BRITISH OCCUPIED ZONE OF IRELAND VICTORY TO ALL NATIONAL LIBERATION STRUGGLES! DOWN WITH FEUDALISTS CAPITALISTS AND REACTIONARIES.

Obtain of Nuclear Weapons Signifies Shah Nazi Ambitions

The Shah of Iran paid a visit to France at the beginning of last week and during this visit concluded an agreement with the French Government for the establishment of five factories

for generating atomic energy in Iran.

The Shah also bought three civilian aircraft of the Supersonic Anglo-French Concord aircraft which was rejected by many countries due to their high prices and their non-economical expenses. In return for this, the Shah's regime will supply France with Iranian oil.

Before the Shah concluding this agreement with France, he concluded in Teheran a huge agreement with America under which the latter will build a huge factory for producing uranium from the central desert in Iran.

Such feverish endeavours by the Shah of Iran for obtaining conventional weapons came after India exploded its recent

Revolutionary Vietnam Wish P.F.L.O.A.G.

More Victories

The following message of thanks was received by the Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf from President Ho Teh Tan Pat of the Provisional Revolutionary Government of South Vietnam. The message reads: "I sincerely thank you for the warm and heartfelt greetings on the fifth anniversary of the foundation of the Provisional Revolutionary Government of South Vietnam. On this occasion I wish to express, on behalf of the Provi-

sional Revolutionary Government, our sincere thanks for your continued support for the just issue of the Vietnamese People. I wish you further victories in your struggle against colonialism and imperialism headed by the United States and the other reactionary forces in the area. The struggle is for wresting freedom and sovereignty of the people of Oman and the Arabian Gulf."

PFLOAG STATEMENT ON ALUMINIUM WORKERS

STRIKES IN BAHRAIN

The PFLOAG said in a statement issued by its representative in Aden on the workers strike in Bahrain that the operations of chasing and wishful arrests and the ruling reactionary authority in Bahrain against the workers since the start of strike by the workers of the aluminium factory in Bahrain "Alba" on 14th June, aroused the indignation opinion and revealed the identity of the repressive tribal authority as well as revealed the veil of faked democracy behind which it tried to hide its ugly face and suspected links and proved remarkably that it is a tool of repression in the hands of the companies and honest guard for their interests. The statement said that the demands of the "Alba Company" workers which were contained in their statement issued on 20th May, 1974 and for which they are today facing a campaign of wide-scale arrests, are in fact just and legitimate demands and cannot be neglected or ignored at all. The company by encouragement from the puppet authority in Bahrain tried to ignore the demands of the workers and bounce on them and l'quefy them thinking that it can effect the passage of its game and trick and continue to exploit the workers and digest their rights as other companies do in Bahrain and all over the arena of Oman and the Arabian Gulf.

The statement said in conclusion that the People's Front

while greeting the stand and steadfastness of the Alba workers and the solidarity of the working class in Bahrain with them and calling upon them towards more determination and steadfastness, it strongly condemns the operations of torture imprisonment and chasing followed by the reactionary authorities and

their repressive tools against the working class in imprisonment and chasing followed by the reactionary authorities and their repressive tools against the working class in Bahrain and calls on the release immediately of the arrested workers, and reinstatement of the dismissed workers and fulfilment of their demands

in full. Moreover, the People's Front asked all Arab and international workers federations and all liberation and peace forces in the world to stand by the side of the struggle of the working class in Bahrain and to deplore the repressive acts exercised against this class by the ruling reactionary tribal authorities there.

US PROPS IRAN AS A SPEARHEAD FOR THE "GULFANIZATION OF WAR" POLICY

The Development Minister in the puppet Qaboos Government paid a visit to Teheran at the head of an economic delegation composed of a number of officials of the Ministry of Development and representatives of major merchants and companies with foreign capitals. As announced the visit aims at consolidating the economic and financial relations between the two puppet regimes in Muscat and Teheran. It is to be recalled that Qaboos and the Shah of Iran have agreed previously on strengthening relations between them in all fields: In the economic field, both regimes adopted several steps which would reinforce and strengthen such cooperation as under these agreements branches will be opened for some Iranian companies and banks and the Iranian capital will also play a major role in running some aspects of the economic life in the Sultanate.

It is clear that American imperialism pushed Iran to-

wards being its military base and the spearhead in the area and is pushing it towards playing the subversive economic role undertaken by its monopolistic companies and corporations. This is what is being undertaken by Iran at present in our country where it is launching a colonialist war against our people, a two-sided war.

1) An extensive Military campaign and annihilation war and destruction against the liberated area with the aim of liquidating the revolution or at least restricting its activity. This is coupled with police campaigns against the citizens and the masses of the Omani people in different areas of Oman with the aim of spreading terror and blocking the road in the face of the revolution and its spread and to establish the feet of the Iranian armies and presence.

2) Economic infiltration with the aim of having gradual control over the needs of the expansionist aggressive aims. Iranian reaction finds every backing and support from the puppet Qaboos regime and from the comprador group as the puppet regime and the compradors view the national question from the angle of how much I will gain and how much I will lose.

This policy which is backed by imperialism was agreed to be called as the policy of "Gulfanisation of the war" and by this policy imperialism hides its ugly face behind its local hands such as the Shah in Shah regime and the Saudi regime which in turn move behind their local veils such as traitorous Qaboos.

FRIENDS MORE REQUIRED TO SAY NO

The repressive authorities in Muscat continuing the liquidation acts against the member of our country through criminal deaths sentences passed by the puppet Muscat government or by throwing the honest nationalists in the prisons. The puppet Government in Muscat issued a death verdict against citizen Ahmed Ali Suhail al-Maashani and sentenced two others to prison terms of ten years and twenty three others to five years and twelve others to four years on the charge of having connection with the People's Front for the Liberation of Oman and Arabian Gulf.

Reuters agency said that the group against whom prison terms were passed number fifty two persons and is the group handed over by the puppet Abu Dhabi government to the Muscat government.

OMANI STUDENTS CONDEMN FRAMED UP TRIALS AND ARRESTS

"The puppet authorities in our country began during the recent period to arrest huge groups within the ranks of the Omani students and to put them in prisons and detentions and to exercise against them ugliest methods of torture and terrorism in a bid to prevent the realisation of the objectives and hopes of our people for freedom and democracy. The total wishful arrests and exercise of propaganda methods and accusations against every nationalist demanding improvement of the popular conditions of the masses and the conditions of the country reveal to how these machineries are linked with new colonialist and reactionary plans in our country."

The statement went on, "The reactionary authorities in our country resorted to the release of a new stage play of the stage plays of contigued trials which aim against our people to hide their terroristic practices as 52 students from

the detained students are facing fake trial. In this way patriotism and demands for improvement of the conditions of the masses and country became a charge of treason deserving indictment, chase and terrorism by the repressive authority."

While resenting and deploring such savage methods against all nationalists from the sections of our people, we ask the authorities to lift up their hands and to stop such savage exercises against national elements.

Patriots and all honest democratic forces!

We appeal to you to condemn all these terroristic and inhuman practices and to expose the stands of the puppet authorities and to raise your voices high for the release of the detainees in prisons and suspension of terrorism in our homeland. Long live the unity of the Omani students' movement and long live the struggle of our people for a united democratic Oman,

Sisters Libya And Iraq Jointly Work To Withstand Expansionist Policies, In The Gulf

Libya and Araq affirmed their care for the dangers which threaten the Arabism and safety of the Arabian Gulf area as a result of the aggressive policy of Iranian reaction.

This was affirmed by Saddam Hussein, Vice-Chairman of the Revolutionary Command Council in Iraq in a statement made in Tripoli last month at the end of his visit to the Libyan Arab Republic which lasted three days.

During this visit he held talks with Major Abdel Sallam Jalloud, Libyan prime Minister. Comrade Saddam Hussein said, "Ideally in my talks with the dangers that threaten the Arabism of the Gulf as a result

of the expansionist aggressive policy adopted by Iran.

He added that the points of view were identical that the stands of Iran are closely linked with the Colonialist-Zionist plan which aimed against the entire Arab nation. This makes the responsibility for facing this stand clearly and firmly as a comprehensive Arab responsibility which cannot be neglected.

About the atmosphere of his talks with the Libyan brothers, Comrade Saddam Hussein said that our talks with the brothers were full of deep feelings with the national responsibility and duties lying upon the national forces.

FOR OUR HEROIC STRUGGLE

A delegation from the People's Front for the Liberation of Oman and the Arabian Gulf paid a cordial visit to Comrade Nguyen Thi Binh, Foreign Minister of the Provisional Revolutionary Government of South Vietnam, who recently paid an official visit to the People's Democratic Republic of Yemen. During this meeting which lasted three quarters of an hour, discussions dealt with the conditions of the revolution in the Arena of Oman and the Arabian Gulf and the imperialist and reactionary conspiracies which are being faced by the area as well as the foreign interferences resembled in the British presence and the Iranian invasion and the political manoeuvres which are aimed at isolating the revolution and liquidating it.

The delegation also dealt in the discussions with the accomplishments realised by the 8th June revolution in favour of the masses in the liberated areas. In turn, Madame Nguyen Thi Binh, spoke about the current political and military conditions being faced by the Vietnamese arena and the continuous violation by American imperialism and the puppet Thieu clique of the provisions of the Paris peace agreement. She confirmed the adherence of the Provisional Revolutionary Government of South Vietnam to these provisions and to the struggle for their enactment and showed understanding for the nature of the stage which is being passed by the 9th June revolution.

Meanwhile, the People's Democratic Republic of Yemen and the Provisional Revolutionary Government affirmed the necessity of consolidating and supporting the struggle of our brave people under the leadership of their combative tool the People's Front for the Liberation of Oman and the Arabian Gulf.

This was expressed in the joint statement issued following the official visit made by Madame Nguyen Thi Binh, Foreign Minister of the Provisional Revolutionary Government of South Vietnam to the People's Democratic Republic of Yemen. The statement said, "Both sides realise the seriousness of the circumstances that are being passed by the national Liberation movements in the Arabian Peninsula and the Arabian Gulf and both sides see that it is necessary that the comrades-in-arms stand at these circumstances in one row to confront the conspiracies of imperialism and reaction which aim at hitting the revolution which is raging in Oman and

the Arabian Gulf and also the bids which aim at encircling the democratic regime in Democratic Yemen and at hitting the national liberation movement in the area.

The statement added: It is clear that America planning the comprehensively coordinated subversive acts which are very dangerous to the terms of the Paris agreement and the intimidator and direct commander of the Thieu authority in

its continuous military efforts to oppose the ambitions of the people of South Vietnam for peace and national reconciliation. This is the reason for the present very serious situation in South Vietnam. This brought the negotiations in Tan Sen Nut and Saint Claude in Paris to a deadlock.

The statement added: "In addition to this the Provisional Revolutionary Government of South Vietnam is exerting

its utmost to make the Paris agreement enacted promptly and in full. Since the formation of the joint four-member military team, the delegation of the Provisional Revolutionary Government of South Vietnam submitted several just and reasonable proposals aiming at starting to implement Clause 8 (b) of the agreement and clause 10 (b) of the Special Protocol connected with the return of the civilian and military personnel. The United States and the Thieu Administration refused to agree to any measures connected with (cont'd page 6)

A VIEWPOINT

Again, the puppet authorities in Bahrain revealed their repressive identity and once again revealed their terroristic "democracy" and the struggles of the Bahraini working class toppled down all fictitious veils behind which the police face of the regime was hiding. The regime which hit against the wall all promises it claimed to realise since independence and ignored the legitimate formation of the National Council. But, instead of government responding to the just demands of the workers and its stand by their side in facing the aluminium "Alba" company, we find it resorting to the Penal Code of 1955 and places the whole subject under the disposal of the Interior Minister and refuses to have the issue discussed in the National Council.

This was like a green light to the company itself which encroached the stand of the authority by its side. It has nothing but to adopt further measures of repression and to add new names to the list of dismissed workers. The interior ministry, which did not find any means for reaching an understanding with the workers other than the "mob police" which is sent for arresting the workers and opening fire on them, then interferes.

The stand taken by the Government only clearly reflects its new attitude which aims at encouraging foreign investments by giving them more concessions in the country and clearing the labour struggles in order to make the companies feel that the atmosphere is clear and suitable for them.

This was admitted by the Minister of development who denied rumours which indicated that businessmen started to leave Bahrain following the labour disturbances which took place in the country.

If the government stood by the side of the companies against the Bahraini workers, then the works of other sectors expressed solidarity with the striking

"Alba" workers as Bahrain witnessed a series of workers strike in solidarity with the strike of the "Alba" workers which support the demands put down by the workers.

What is going on in Bahrain confirms anew the failure of the authority to absorb massive wrath and the downfall of its

bids to abort the struggles of the people of Bahrain topped by the struggles of their working class. It also reconfirms the awareness of the working class towards such repairs and its ability to foil them and force the authority to show its identity or submit to its just demands.

COMRADE KHALED AMIN, PFLOAG ENVOY TO ARAB LEAGUE FACT-FINDING COMMISSION, BACK IN LIBERATED AREAS

Comrade Khaled Amin Abdel Qawi returned to the liberated area via Aden last month from Cairo after delivering a message from the Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf to Mahmood Riad, Secretary General of the Arab League and head of the fact-finding commission on the foreign interference and presence in our country.

Comrade Khaled Amin said on his arrival to Saut al-Thawra (voice of the revolution), "I have delivered to Mr Mahmood Riad, Secretary General of the Arab League and head of the fact-finding commission in the Sultanate of Oman, a message from the Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf, connected with the entry of the commission into the liberated areas. Although we did not find all of the commission members in Cairo, yet we confirmed to the other members of the commission topped by the commission leader Mahmood Riad our adherence to the decision of the fact-finding commission to visit the parties concerned in the war raging in Oman."

We also expressed to them our welcome for the commission and preparedness to receive it on the liberated territories and to cooperate with it in order to accomplish its tasks. We also

affirmed to them anew the non-preparedness of the People's Front to sit with the commission in any place outside the liberated territories before it implements its aforementioned resolution so long that it visited one of the parties in the dispute. Comrade Khaled concluded, "we are awaiting the reply of the commission to the message of the PFLOAG within few weeks."

Yugoslav Party & State Officials Show More Understanding

Comrade Jebel Awadh returned to the liberated areas last Tuesday from Belgrade after making an official visit to Yugoslavia. During his visit he took part in the tenth conference of the League of Yugoslav Communists.

The PFLOAG delegate was received with warm hospitality and met a number of officials in the State and Party and acquainted them with latest developments in the struggle of our people in Oman and the Arabian Gulf. These officials showed more understanding for the nature of the difficult circumstances which are being passed by our struggle as a result of the imperialist attack and the Iranian reactionary interference.

Americans Are Pardoned Of Any Crimes Committed In Iran

Months after the white revolution, the national forces confronted the fake reforms of the authority. The white revolution came under the slogans: "no for the dictatorship of the Shah and down with the Shah's regime."

The aim of the reforms was to absorb the masses wrath and a curtain for hiding the tragedies of the people.

The religious men shared the national forces in confronting the Shah's reforms. These were topped by al-Khamini who is exiled at present in Iraq.

The government laid down a law calling for the non-trial of Americans in the Iranian courts whatever be the crimes committed by them. This law was suggested by America to Iran, Turkey and others and was not accepted except by Iran.

On 5th June, 1973 and during Ashura which continued for a week, the ordinary demonstrations turned from religious demonstrations to political demonstrations in Teheran, Asfahan, Mished, Shiraz, Tibriz and other towns.

On 5th June, 1963 and during religious ulema al-Khamini delivered a speech to the masses and declared his open hostility to the authority and preparedness to commit martyrdom for the sake of resisting the authority. He was chanting two slogans:

"The Shah is traitor and those loving him are infidels"
"Americans law places Iran and its people in the hands of America".

On 5th June, at three in the morning, the forces of the Shah attacked the house of al-Khamini and arrested him. His arrest was spread amongst the people.

In the morning of 5th June, roudy demonstrations were staged during which the demonstrators damaged the statues of

the Shah erected in the squares and attacked the Ministry of Information and other places.

On this day the forces of the Shah came down to the streets and took up positions there and erected the barriers. The army was equipped with tanks and armoured cars and the author-

ity ordered its forces to open fire on the citizens with the aim of killing them. The people were armed with stones and long pieces of timber throughout the day. In the evening, the state of emergency was declared.

Remain was one of the vill-

ages from which a large group of peasants came out and went to Teheran. When this group arrived near Baferabad bridge, fire was opened by the Shah's forces on them and were killed. Fifteen thousand were the victims of the events of 5th June in Iran.

FIFTH ANNIVERSARY OF 22ND JUNE MOVE INVOLVES MORE VICTORIES

The masses of the people in Democratic Yemen celebrated last month the fifth anniversary of the triumphant corrective move which was carried out by enlightened revolutionary elements in the National Front Political Organisation on 22nd June, 1969 to rectify the procession of the 14th Oct revolution on the correct path as was outlined by the blood of the martyrs and the sweat of the toilers from the members of the great Yemeni people.

The day of 22nd June has a dear place in the hearts of our masses and militants and this place is not equalled and paralleled except by the place and position of the day of 9th June. If the day of 9th June is a symbol for the break-through of our people towards freedom, a shining tomorrow and the build up of their national democratic authority, then the 22nd of June is a symbol for the creation of a revolutionary support fort for all militants in our Arab homeland in general and the masses of our militant people in Oman and the Arabian Gulf in particular.

Our people realizes that any accomplishment or victory achieved by this steadfast fort, with revolutionary stubbornness, is an accomplishment and victory for them and for their just struggle. This was felt and realised by our people through their practical combative exercises. Our people realises that the imperialist and reactionary

attacks being faced by it continuously are not aimed against it alone but also aim, as a second step, at curbing this fort. At a time in which we record our warm combative greetings from the joint combative position, we also record our great and endless admiration for the great economic, social, and political accomplishments realised by the Yemeni people under the leadership of their pioneer political organisation the NFPO throughout the age of this glorious move. If we had a wish on this immortal occasion, this is to hope and wish the

masses of the 14th October revolution, in the name of our people and militants, further revolutionary victories on the road of building the unified democratic and progressive Yemen under the leadership of a vanguard political Organisation vowing to the comrades of the procession that we will march side by side with them on the path of the hard and strenuous struggle in order to reach the objectives for which the blood and tears of the toiling members of the people in Yemen, Oman and the Arabian Gulf were shed.

MONSTROUS OPPRESSION IS AN ABORTIVE ATTEMPT TO TERRORIZE MASSES

In continuation of the chain of terrorism in the Sultanate of British, the episodes which started to appear sharply with the arrival of puppet Qaboos before about four years, and which are resembled in the escalation of the barbaric military campaigns against the masses of our people in the liberated area and the operations of extensive and collective arrests and executions and other operations of repressions and imposition of terroristic atmospheres on the peaceful citizens and in spite of the terroristic atmosphere imposed on the citizen who is always followed by an element from the intelligence; in spite of all this terror and panic still reign over the puppet regime fearing the

possibility of the expansion of the revolutionary activity by the masses of our people and their armed revolution.

The reactionary authority recently arrested a group of Omani youths, who were on their way from Abu Dhabi to their areas in the Sultanate of the British, of course without forwarding any justification for that.

The reactionary authority is also searching the launches of the citizens in different ports of the Sultanate very promptly and in a terroristic manner. We give as example what happened to the launch of citizen Sheikh Hamad bin Khalfan, three weeks ago. After the arrival of the launch to Muscat from Bahrain, the reactionary authority search the said launch accurately; then, arrested the navigators (captain) who are Nasser and Abdullah Hamad.

The first was arrested for 24 hours during which he was subject to accurate interrogation. The second was arrested for ten days during which he got a big share of treatment by the British intelligence and its Jordanian elements. He was then released.

Of course, these exercises interpret that they express the adherence to respect the freedom of the Omani citizen and to crown the new era of democracy!!!

PDRY Denounces Qaboosite Allegations

An official source at the Foreign Ministry of the People's Democratic Republic of Yemen made a statement last month to the Aden News Agency saying.

"The Foreign Ministry of puppet Qaboos came up yesterday with a statement on what it called violation by a Yemeni transport plane of its air space.

The source added, "while resenting such fabrications and claims contained in the said statement, we enquire about the motives and real reasons lying behind the wave of statements and announcements by the Qaboos regime during the

recent period."

It went on that Qaboos and his chancelleries did not stop at the limit of outraging the prestige of the brave Omani people and belittling their national and patriotic feelings through the sufferings from the Iranian invasion and foreign interference but their vanity and hireling attitude made them think that they can play tricks and blind the eyes of local Arab and world public opinion by diverting their attention to the successive official statements containing false charges against the People's Democratic Republic of Yemen and by hinting that the popular revolution existing in

Oman today is nothing but a dispute over the borders with Democratic Yemen.

The source confirmed its confidence of the ability of the brave Omani people to realise victory over the Iranian invaders and the puppet Qaboos regime.

Moreover, the Yemeni people who managed to destroy the methods of British colonialism and its reactionary puppets, are capable of confronting any forthcoming aggressions planned by the circles of reaction and imperialism and to adopt the methods necessary for protecting their territories and safeguarding their peace and security.

Iraqi National Council of Peace and Solidarity Celebrates Ninth Anniversary of 9th June Revolution Day

A rally in solidarity with the revolution of our people under the leadership of the People's Front for the Liberation of Oman and the Arabian Gulf was held in Baghdad on 9th June to mark the ninth anniversary of the revolution of 9th June. The rally was held by the National Council for Peace and Solidarity in the Iraqi Republic in fulfilment of the resolution issued by the 11th session of the Council of the Afro-Asian Peoples' Solidarity Organisation which was held in Baghdad last March and which calls for regarding the 9th of June every year a day for solidarity with the revolution in Oman and the Arabian Gulf under the leadership of the People's Front for the Liberation of Oman and the Arabian Gulf.

The rally was attended by huge masses from the brotherly Iraqi people, comrades from the two leaderships of the Arab Baath Socialist Party, (National and Regional Leaderships), the leaderships of the other Iraqi progressive parties, Comrade Aziz Sharif, Secretary General of the Iraqi Council of Peace and Solidarity and Minister of Justice and a number of Iraqi and world personalities as well as the representative of the People's Front for the Liberation of Oman and the Arabian Gulf.

The rally was opened with a speech delivered on behalf of the Iraqi National Peace and Solidarity Council by Comrade Aziz Sharif who praised the heroic struggle of the people of Oman and the Gulf led by the People's Front for the Liberation of Oman and the Arabian Gulf and said that at the P.F.L.O.A.G stands as an important vanguard outcome in the struggle of our people in this area. Then the message sent by Mr. Youssef Assibai, Secretary General of the Afro-Asian Solidarity Organisation was read. In it he said: "It pleases me to greet in the name of the Permanent Secretariat of the Afro-Asian Peoples' Solidarity Organisation your meeting in solidarity with the militant people in Oman and the Gulf under the leadership of the People's Front for the Liberation of Oman and Arabian Gulf. We are confident that the heroic struggle of our people in the Gulf and the Arabian Peninsula will be crowned with certain and firm victory and that the Afro-Asian Peoples' Solidarity Organisation will extend every solidarity for the victory of the cause of our people in the Gulf."

This was followed by a speech

delivered by the representative of the People's Front in which he greeted the brotherly Iraqi people and their national and progressive front and expressed pleasure over the participation by the Iraqi masses with the masses of our people in the celebrations marking the ninth anniversary of the ignition of the glorious revolution of 9th June. He also conveyed the greetings and well wishes of our steadfast masses and militants who are defending the homeland against the foreign Iranian invasion and thanked the comrades in the Iraqi National Peace and Solidarity Council for the great and strenuous efforts made by them for the success of this solidarity rally held to mark the ninth anniversary of the 9th June revolution. The People's Front representative said that the celebration of this glorious anniversary in Iraq is likely to deepen the combative relations between our people in Iraq and Oman and the Arabian Gulf against the enemies of our Arab nation. After reviewing the militant campaigns launched against the revolution and the imperialist and reactionary conspiracies which aim at liquidating and aborting the revolution of our people and the imperialist and reactionary unity against this area, the People's Front representative said that the revolution of 9th June was detecting all distorted and suspected movements in the area and was laying down the methods for facing them and foiling all reactionary and imperialist plans in the area. As a result of this, the Iranian campaign faced failure on the rock of steadfastness of our masses and the braveness of our militants. The People's Front representative concluded his speech by saying that the invaders were carrying the arms but we were carrying our belief in the issue and our confidence of its victory and our determination to wrest victory by blood at a time in which we escalated our mass activity in other areas of Oman and Qaboos, who claims that his era is one of democracy, became arresting hundreds of citizens without any reason.

A speech was also delivered by Comrade Naim Haddad, member of the Regional Leadership of the Arab Baath Socialist Party and secretary General of the Progressive National Front in Iraq, on behalf of the Arab Baath Socialist Party.

In this speech he said: "Our people in the Arabian Gulf is today facing the toughest pictures of colonialism and human enslavement by the imperialist, Zionist and reactionary pact.

Iranian reaction is playing the role of policeman in the Arabian Gulf area in order to paralyse the national liberation movement justifying its aggressive military interference as to be in response to requests by some puppet reactionary regimes for protecting their old and backward regimes. Comrade Haddad added by saying that the puppet imperialist and reactionary circles tried during the periods of colonial occupation to deface the Anabism of the Gulf using occupation armies and the military bases and exercised different methods of suppression and repression with the aim of keeping the colonialist presence and continuing the imperialist looting of the oil wealths and control of the waterways as well as to prolong the age of the puppet reactionary regimes and to complete implementation of the imperialist strategy to subjugate the Arab area and regard it finally as one of the areas of imperialist influence.

After reviewing the link of the imperialist plans all over the Arab arena, Comrade Naim Haddad stressed upon the importance of the present stage and said that the delicate circumstances call for the escalation of the struggle, differentiation of its methods and direction of fire against the forces of imperialism and reaction in all Arab positions without stop. He also stressed upon the necessity of the cohesion of the Arab progressive, revolutionary and national forces and said that this is a fundamental guarantee in the process of the struggle against imperialism, reaction and Zionism.

Comrade Naim Haddad concluded his speech by affirming continuation of the struggle against the reactionary Iranian invasion and stress upon demands to abolish the open and secret colonialist and reactionary treaties and pacts, evacuation of the British, American and Iranian military bases (all) and withdrawal of the foreign and mercenary forces which soil our Arab territory in the Arabian Gulf and affirmed Iraq's stand by the side of the struggle of the sister People's Democratic Republic of Yemen against the reactionary conspiracies which aim at encircling it and liquidating its revolutionary accomplishments.

At the end of the rally the following final statement was read:-

"We, the representatives of different national, patriotic and progressive forces taking part in the extensive massive meeting organised by the National Council for Peace and Solidar-

ity in the Iraqi Republic on the occasion of solidarity with the People's Front for the Liberation of Oman and the Arabian Gulf, which was held on 9th June to greet the strenuous and heroic struggle waged by the people of Oman and the Arabian Gulf against the conspiracies of imperialism and reaction which are being woven against, it in particular and against the Arab liberation movement in general and in which the expansionist Iranian reactionary regime plays the role of main tool in collaboration with Arab reaction of Oman, Saudi Arabia and Jordan, with the aim of strangling the liberation movement in the area and prolonging the influence of imperialist and its monopolies over its oil wealth and important and strategic position and hitting the Arab liberation movement entirely and in particular the progressive regime in the Iraqi Republic and the progressive regime in the People's Democratic Republic of Yemen. Declare our full support for the People's Front for the Liberation of Oman and the Arabian Gulf and back and consolidate its struggle by various material, moral and political methods until final victory.

The expansionist policy followed by the Iranian reactionary government which is represented in infiltrating into the Gulf regions aim at changing their populatory nature and, in other words, have control over them. By the occupation by Iran of the three Arab islands, it forms part of the American and British imperialist plan and comes to complete the imperialist, Zionist reactionist plan which aims at liquidating the issue of the Palestinian people and prolonging the Israeli occupation as well as denying the national rights of the Arab Palestinian people and in particular the rights to return back to their homeland and to determine their future. All this is for hitting the Arab national liberation movement and imposing partial submissive solutions for keeping the imperialist influence and its return to the Arab regions which got rid of it.

We, while realising the seriousness of this plan and its danger to the future of the Arab liberation movement entirely, and the role of Iran in implementing it, condemn the Iranian military interference. At the same time, we condemn the imperialist military presence on both sectors of the Arabian Gulf and on the coast of Oman in particular, and the other imperialist military bases in the Gulf islands and the Indian Ocean.

THE FREEDOM HOUR STRUCK-OUT

"The Freedom Hour struck-Out with Colonialism" is the title of the film directed by Lebanese female militant "Hany Srour" who chose for it the title of a Popular Song. This popular song is being repeated by the militants of the People's Liberation Army and the citizens in the liberated areas of the southern Region of Oman "Dhofar".

The shooting of the film lasted two months in which she accompanied a group of thirty artists and a group from the People's Liberation Army. These groups walked for hundreds of kilometres under the blaze of the sun and the bombing of British aircrafts. Hany Srour managed to get acquainted from a close distance with the reality of the 9th June revolution from all aspects. The revolution seem as the "Unknown Revolution" in view of the information embargo struck around it.

The groups lived amongst the masses in the liberated area listening to them, having dialogues with them and recording their daily life. They also lived amongst the fighters of the People's Liberation Army, pictured their militant life from different aspects - the massive activity, the political activity and the military activity. Hany accompanied the Liberation Army in the genuine military operations, the political meetings and working projects of use to the citizens such as opening of roads, agriculture and drilling of wells.

Hany held a collection of interviews in the local "himyarite" language and in the Arabic language with figures from all sectors; the People's militant citizens. She did in accordance with her utmost to make the film truly express the subject on which it talks. She also worked to reduce any external comment. For this she took advantage of revolutionary songs repeated by the inhabitants of the liberated area. During these interviews, she managed to penetrate into the thoughts of those who are fighting for the past nine years with determination and braveness which astonished the friends and enemies tolerating by that the economic blockade, the starvation struck around the liberated rural areas, the bombs of the British aircraft as well as the attacks of imperialism, the last of which was the huge Iranian campaign which is continuing since more than six months.

Hany Srour gave the question of liberation of the woman in the Third World a special attention and managed to give prominence to viewpoint

WITH COLONIALISM

of the PFLQ towards this important question. Through several interviews with woman from several sectors she managed to deal with the problem and solution laid down by the People's Front in full manner.

We see in this part of the film that the liberation of woman is taking place through the national struggle for the freedom of the homeland and the citizen and through the protracted popular war, which will wash out suppression and colonial enslavement of the homeland and enslavement by man of woman or as said one of the militants of the People's Liberation Army that the roots of any revolution is through her look to the issue of woman.

This is part of the film which is completed by the other part which pictures the conspiracies

against the issue of the people of Oman and the Arabian Gulf. The conspiracies of the imperialists and their local puppets as the film covers documentary tapes showing all these things and showing reality of the military presence of imperialism in the area which is being reinforced as the time passes by. America and Iran are occupying every place from which Britain withdraws and local armies become a repressive tool against the people and not for defending homeland which is usurped by Iran, American and Britain.

The documents also picture the conspiracies by the British withdrawal or "the arts of withdrawal for the sake of stay" and the methods of neo-colonialism. It is also resembled clearly in the replacement by the

British of Qaboos for his father Saeed Bin Taimour in order to absorb the massive wrath. The role of the British officers in the Anglo-Qaboosite coup appears clear.

While our people live in poverty, misery and hardship, the accounts of the rulers are swollen. Two pictures contradicting with each other. The poor and militant masses of the people on one hand and the subset in their extravagant life on the other. The poor militants with their simple arms but with their ironic will and deep belief in victory, on the one hand and the traitors and their mercenary armies and invading forces, on the other. This film is a combative tool as says the progressive director Hany Srour in her reply to a question on her ambitions in the cinema: "When I carried the same I did not do so in order to please myself but to defend the crushed and those oppressed."

People's Just Struggles Heading Towards Victory

PALESTINE

On the road of the protracted popular liberation war, the Palestinian revolutionaries continued to undertake their combative tasks against the Zionist enemy from inside the Palestinian territories.

After the successful attack on Naharia, adverse reaction in the circles of Zionism, imperialism and the Arab reaction forces running after Kissinger followed. As a statement by one of the resistance groups confirmed the adherence of the Palestinian revolution to its genuine Palestinian course declared by it as a means for realising the objectives of the Palestinian people for returning back home and recovering their rights in full and in reply to those who are trying to deviate the procession of the Palestinian struggle from the correct way to pull it to the course of liquidatory settlements rejected by the Arab and Palestinian masses, the Palestinian revolutionaries managed to kill and wound a large number of Israeli soldiers following the explosion of an explosive device under a troop transport vehicle at Dalmonah, which is the main centre for the Israeli nuclear researches.

The Palestinian news agency (WAPFA) which published the report said that the device exploded when some of the

Zionist military experts were trying to render it ineffective as it was found in the vehicle.

CHILE

The People's Front for the Liberation of Oman and the Arabian Gulf shares the Chilean people and humanity in celebrating the seventieth anniversary of the birth of Pablo Neruda which was marked on 12th July. We consider it our duty towards poetry and the values enhanced throughout his works - as vast as America and as torrenial as its rivers - to commemorate the date by recalling the great significance of his personality. The poet drew his last breath on 23rd September, 1973. His death hastened by the great drama being enacted in his native land as a result of the fascist military coup.

His last days were marked by tragedy and by his creative works. He wrote the final chapter of his vision of the national catastrophe which had precipitated President Allende's death, buried democracy alive and lit the flames to consume the books, as happened forty years ago in Berlin.

We believe that perhaps the best way to remember Neruda on this seventieth anniversary of this birth is by doing something in defence of his people, and of human intellects.

SOUTH VIETNAM

The Provisional Revolutionary government of South Vietnam issued a statement on the subversive activities carried out by America and the Saigon Administration and their escalation of the aggressive war in a bid to sabotage and hit the Paris peace agreement in Vietnam. The statement said, "Recently and on 27th May, 1974 the American Ambassador G. Martin who is regarded by the people of South Vietnam as the American ruler in Saigon, started to awkwardly defame the just struggle of the Vietnamese people for defending the Paris agreement and to affirm to the Saigon Administration that America will not abandon South Vietnam contravening by that with the basic principles of the Paris agreement on Vietnam openly."

PDRV - VIETNAM (Cont'd)
the duties of the team in charge of another area belonging to the Provisional Revolutionary Government of South Vietnam.

The statement concluded by saying that the United States and the Thieu Administration are to bear full responsibility for the severe consequences from their acts and the event of their continuation to sabotage the Paris agreement and to confront the joint four-member military team with the danger of collapse, they will bring to themselves undoubtedly other bigger and wider areas.

MORE MESSAGES OF SUPPORT AND GREETINGS RECEIVED

The Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf received further messages of greeting and solidarity on the occasion of the ninth anniversary of the immortal revolution of 9th June from a number of groups of the Arab and world revolution. The messages contained affirmations of consolidation and full support for the revolution of our people and their combative procession under the leadership of the People's Front for the Liberation of Oman and the Arabian Gulf. The following are texts of some messages:-

BAGHDAD:

The Committee In Support of the Revolution in Oman and the Arabian Gulf located in Iraq extends greetings to you on the ninth anniversary of the armed people's revolution under the leadership of the People's Front for the Liberation of Oman and the Arabian Gulf as this anniversary is regarded as a significant point in the history of the struggle of our Arab nation from the Ocean to the Gulf."

"We are always standing by your side and ask all national and progressive forces in the world to back up and consolidate your just struggle against imperialist and reactionary influence and the colonialist Iranian interference in the area."

"We wish you further victories for checking off the Iranian and British invaders and ending the Sultanic reactionary regime. Let us march forward towards a better tomorrow for all our united Arab masses."

IRAN:

"While we greet you on celebrating the ninth anniversary of the glorious 9th June armed people's revolution in this important part of our area, we renew our vow to adhere to the protracted people's revolution

for checking off all imperialists and their local puppet. We seize the opportunity of the anniversary of your triumphant revolution and affirm to you that our militant Iranian people are with you and fight under very tough and difficult circumstances to blast up the puppet Shah from the inside while you are blasting it up from the outside.

"Our people feel greatly annoyed to see the criminal Shah sending invading mercenaries to undertake aggression against your revolution only for ensuring oil and other colonialist interests and to please his colonialist masters as well to liquidate the revolutionary gains realised by the armed revolution of your people."

"We are confident that the puppets and their masters will receive a tough lesson at the hands of your brave revolutionaries and our revolutionaries and all their bids to knock down the revolution will be foiled."

"Our people with all their forces resent the interference by the Shah's regime in the Gulf and against your revolution and people and undertake to escalate their struggle side by side with all revolutionary forces in this area in order to check off imperialism, Zionism and reaction."

CHAD

"We greet you on the occasion of the ninth anniversary of your just people's revolution which aim at liberating the people and land from the yoke of colonialism and traitorous stooges as well as the steadfastness of the People's Liberation army in front of the atrocious Iranian colonialist invasion."

"With the cordial wishes of the revolting Chad people under the leadership of the Chad National Liberation Front, this people who suffers from French colonialist invasion which is trying to rescue the stooges of colonialism in our country... we confirm that colonialism will fall along with its stooges in the face of the blows

of our revolutionaries.

Chad National Liberation Front

JORDAN:

"We greet your PFLOAG on the ninth anniversary of the 9th June revolution affirming to you the close combative cohesion between our Jordanian people and the people of Oman and the Arabian Gulf in the face of the Qaboos-Hashemite ally."

"The conspiracies which are being woven in our Arabian Gulf are only inter-linked chain of conspiracies against our people in Democratic Yemen and our Jordanian Palestinian peo-

ples in order to liquidate the proper revolutionary attitude confronting the proper armed struggle and the people's liberation war represented by the vanguards of the people's liberation army and the groups of the Palestine resistance movement."

"Surely, your steadfastness with the backing of the revolutionary forces and the combative cohesion with the national liberation movements which fight for defeating world imperialism and its reactionary stooges will bring to your decisive victory."

Jordanian Revolutionary People's Party

HOW LONG WILL BAHRAIN WORKING CLASS BE EXPLOITED & ENSLAVED

The Government of Bahrain did not find a means to follow for settling the strikes of working class for defending itself against the exploitation and oppression of the companies and in the face of the deprivation of this class of the right to form workers unions and federations, other than to follow its old method of repression: The Bahraini Government issued an order to the Interior minister (Henderson) to interfere for solving the strike staged by the Alba "aluminium workers and to repress any attempt at using the moves of strikes for aims enabling it to threaten the political and economic position in the country.

These measures come after the government neglected throughout the age of the national council, the demands of the workers topped by their legitimate right to form workers unions and a federation for them.

During the past period the government tried to make the council as a doorstep enabling it to confine the class conflicts within its scope and to promise the workers of realising their demands - according to the moods of the sheikhs and the neighbours.

It also tried by various means to convince them that the council, is the council of the people including workers, merchants and the al-Khalife family and that it is within the capability of this council to reach the solution which will preserve the rights of the workers and their just demands. The reactionary authority tried to take advantage of the participation of some national elements in the council to distort the working class and the crushed masses who are agonising under the burden of soaring up prices, unemployment and class nation-

nal oppression. But all these methods were doomed to failure as a result of the awareness of the working class and its firmness and realisation of the status of the council and authority and the inability of these weak corporations to realise the demands of the workers. Throughout the past period, the authority tried to shatter the working class through the heightening of differences within her ranks intensifying the relations between the national groups as well as by encouraging some of them to undertake some measures at the expense of the working class and the other national groups.

It also worked to liquify the struggle through the method of procrastination which it followed with the constituent committee of the workers and the employers of Bahrain in 1972. It also tried to show as if there is a progressive wing in the family adopting the demands of the working class and defending them. This wing is represented by the crown prince and is a distorted and desperate bid to prepare new heroes for the political stage in future.

Although there are differences within the family and the reactionary regime but the colonialist circles wanted to attach the working class with the wing of the ruling family in order to link all conflicts in the country with it and, in other words, to divert the class and national struggle from its real course.

The reactionary circles wanted through the elements deeply sunk in reaction, to replace the class struggle by sectarian struggles led by the reactionary bloc in the council.

But all these bids were doomed to failure due to the steadfastness and enlightenment of the working class and after six

Shah Voices His Hostility on Palestinian People

The Shah of Iran announced in an interview with the French magazine "L'Our" that it is undoubtedly that the Palestinians do not care for settling their problems through the recovery of a land on which they live in as much as they care to establish a revolutionary authority aiming at uprooting the royal regimes and establishing popular revolutions in the Middle East.

The Shah of Iran was asked as whether the main problem in Middle East is the Palestinian

Question?

He replied, "Yes, there does not exist any other problem. If the Palestinians formed a state in the western Sector of Jordan, they will try to annex the Jordanian kingdom and thereafter they will be having borders with Saudi Arabia."

Are these statements by the Shah of Iran on the Palestinian resistance an introduction or justification for his direct involvement in the liquidatory conspir-

(cont'd page 8)

Staunch Friends Increasingly Confirm Long-Standing Solidarity

Ever since the plotting of some regimes inside the Arab League Committee and their purposeful twisting of the assignment of the committee became clear where cowardly statements started to be released by several sides inside the committee, to the effect that the assignment of the committee is to listen to the themes of Qaboos and to support them, but not to reveal the flagrant foreign interference in Oman the Arab masses and the supporters and friends of the revolution everywhere followed such behaviours and managed through their enlightenment and experience with the plotting of these puppet regimes against the Arab liberation movement to analyse the motives and aims of this malicious plan. In this connection, the Palestine, Yemen, and Gulf Committee in London issued the following statement:

In spite of the involvement of the aircrafts of the British Royal Air force and the Special-British forces and mercenary officers, all bids to deter the procession of the people towards liberation have failed. The Shah of Iran adhered to make available 11,000 Iranian soldiers and officers for crushing the revolution as he says. The strange thing is that the Arab League committee did not see anything of such interference and does not consider it a threat to the Arabism of Oman. Moreover it was satisfied with the statements of the puppets in Muscat.

In the meeting held in Birmingham, the Palestine, Yemen and Arabian Gulf Committee and the Branch of the General Union of Yemeni workers and Arab students addressed a message to the Arab League committee reading:

"Our meeting resents and deplores such suspected mediation project which denies the representation of the people of Oman and their armed revolution under the leadership of the People's Front for the Liberation of Oman and the Arabian Gulf."

Similar meetings were also held in London and Leeds and a memorandum was prepared and signed by the Arab labour organisations in Britain. The memorandum deplores acceptance by the Arab League of the Sultanate of Oman and its silence over the Iranian interference.

In Berlin, the Support Committee in West Berlin called upon all Arab, German and foreign organisations to a meeting which was held on 8th June and was attended by more

than one thousand and five hundred people. The conferees agreed to condemn the negligence given by the committee over the foreign presence and Iranian invasion of Oman.

In Cairo the Arab students organisations issued a statement in which they resented the new conspiracies with which it is wanted to encircle politically and to create justifications for its liquidation through Arab hands after the mercenaries of the Shah of Iran failed to liquidate it.

In Beirut, the students Organisations issued a statement in which they condemned and deplored the Arab official silence over the crime of Iranian

invasion of Oman and the crimes of war against the Omani people in Dhofar and the silence over the occupation of Arab territories by the Iranian and British forces.

In the United States, several meetings were held in the main towns including Los Angeles, Athen Paragon, and Detroit. During these meetings, the malicious plan was revealed along with the attempts to make the Arab League a tool for supporting the Iranian invasion instead of exposing it.

In Paris, a roudy meeting was held which was attended by more than 1,000 persons on 8th June. The meeting was held after the screening of the film

"The Liberation Hour Came". The participants resented the silence of the Arab League over the Iranian invasion and the British interference.

In Stockholm, capital of Sweden, the Committee in Support of the Revolution in Oman and the Arabian Gulf (Kroff) held a ceremony on 10th June on the occasion of the ninth anniversary of the revolution of 9th June. This took place in cooperation with the union Confederation of Iranian Students in Stockholm and the Eritrean Students National Union as well as the Union of Moroccan workers and the League of Turkish workers.

[EDITORIAL Cont'd]

our people and homeland. The revolution affirms that any bids of such type will be doomed to failure and the revolution has the ability to reveal such bids and expose them whatever be the glittering and deceiving cloths it adorns.

The procession of nine years of strenuous and bitter struggle and under the shade of complete official Arab negligence towards the sacrifices and sufferings introduced by our masses throughout this procession and the great combative experiment and experience gained makes us, with pride, in possession of complete ability to reveal and expose every thing taking place around us and capable of facing everything planned against us.

We confronted with revolutionary firmness and fierceness all barbaric military campaigns and overcame them to the extent that these campaigns were knocked down. We also confronted the bids by the colonialist and reactionary forces to explode the situation inside the ranks of the revolution by depending upon their elements which were mingled within our ranks. This was resembled in the secessionist move of 12th September. However, the revolution came out victorious.

Moreover the revolution faced with enlightenment the total manoeuvres and conspiracies weaved against it throughout the age of the triumphant revolution in a bid to bounce on it and liquidate it. The revolution came out from all this triumphant and victorious.

After the flagrant Iranian invasion, whose aims are not hidden, the revolution finds itself committed more than any time before to confront with greater firmness and stronger steadfastness the total bids aiming at bouncing on it and emptying it from its patriotic and progressive national concepts,

whatever be the sources of these bids.

The aims of the revolution and its principles are clear and defined by its national democratic programme, and that these principles and aims have tens of martyrs fell and still fall on the path of freedom. For these objectives alone, we will continue the struggle firmly and without stop until our homeland is liberated and united and until the danger which threatens our glorious Arab nation is checked off.

We affirm that we will never abandon our arms at all and will not stop the struggle so long there is an atrocious colonialism existing on our territories and so long there are greedy invaders on our territories and so long there is a regime having alliance with these forces to hit the national and patriotic interests and wishes of our people.

Certainly, all sincere nationalists who care for the interests of their homeland and glorious Arab nation will stand by our side. Certainly, victory will be the ally of our people and their revolution and all conspiracies and intergives will be smashed against the rock of steadfastness of this people.

Shah Ambitions (Cont'd)

In spite of the statements made by the American officials that the nuclear reactors will be for economic purposes and development aims and not for manufacturing any nuclear weapons for Iran, but indications confirm the opposite. The Shah is trying to satisfy his expansionist and Nazi ambitions through owning the strongest and most modern weapons.

This is the fact and these agreements will only bring losses to the Iranian people.

Bahrain Workers (Cont'd)

months of the age of the council of the authority the following facts have been proved:

1) that the authority is the basic and main enemy of the masses and in the first place of the working class and that it is not prepared to submit its demands except when its losses increase and discovers that serious results will be suffered by it by ignoring the rights of the workers.

2) That the council is only a tool in the hand of the rule and not a tool in the hand of the working class as in spite of the committee formed by the council of authority, yet it was unable to extend or postpone anything connected with the labour movement and its bad circumstances.

3) That the authority proved that it cannot give up repression. It quickly returned to exercise its old method when it accused all workers of being backed by political movements which want to use them. It, by that, ignoring the legitimate political and economic rights of the workers and the other factions of the people.

The authority by returning back to its old method of repression and by authorising the Henderson Ministry to arrest the workers, it is only proving once again its strong hostility to the freedoms and its inability even to conform with the requisites of the parliamentary life.

4) It has been remarkably proved to the workers that the authority is their main enemy and that this authority is defending the companies, marchants and monopolists of different nationalities and that there is nothing before the workers for wresting their demands other than unity of their struggle, and workers union in order to smash down all bids by the authority for effecting the passage of its projects.
