THE ENEMY PLAN AND HOW WE COUNTERPOSE IT

THE US PLAN HAS PASSED THE DRAWING-BOARD PHASE AND
ENTERED INTO THE PHASE OF APPLICATION

The past period witnessed a number of visits and consultations through which the basis of the new pact was laid down by the imperialist and reactionary forces in the region. The roles were also assigned and the immediate aims were discussed.

The ultimate aim of the new pact is to bring about the downfall of the progressive regime in democratic Yemen, and liquidate the armed revolution in Dhofar. The immediate aim of the pact is to liquidate the revolutionary forces in Yemen, Oman, the Arab Gulf and the Arabian peninsula; to hit at the friendship of the Arab countries with the Soviet Union and with the socialist countries; to liquidate the Palestinian resistance and to pave the road for a peaceful solution which is in fact a surrender to the Zionist and imperialist enemy. Thus the balance will be weighted in favor of the reactionary forces, the stooges of imperialism.

In this horrifying plan, which is led by the the US, the role of every reactionary and imperialist force was defined, thus :
* US SUPPLIES THE PACT, DISCIPLINES ALL SIDIES IN IT, DIRECTS them and leads the imperialist-reactionary attack through its control over the intelligence and the oppressive military machinery. US imperialism also acts through its policy makers who manipulate the rulers in the Arab world like pawns.

* SAUDI ARABIA LEADS THE REACTIONARY ACTIVITIES AND DEERS THE largest share in hitting at the revolutionary forces and in mobilizing the reactionary forces. The Saudi reactionaries support and consolidate all the reactionary regimes in Oman, the Arabian Gulf and in Jordan politically and materially. It also gathers the mercenaries and all who were rejected by the people of Oman and Yemen, mobilises and arms them to play their predetermined role in weakening the progressive regime in Yemen, and in starting the civil war in Yemen and Oman thus preparing for the direct intervention of the reactionary army of Saudi Arabia. Saudi Arabia also supports the Jordanian regime in its confrontation with the Palestinian resistance, in its bid to form the United Arab Kingdom and in making of Jordan a base for the infiltration of the Zionist influence, thus preparing for the peaceful coexistence with Israel in other words surrender.

* IRAN PLAYS THE ROLE OF THE REPRESSIVE FORCE IN THE HANDS of the US and the guard dog of the imperialist interest in the region. In addition to transforming Iran into a huge arms dump it is clear that its role is greater than just preserving the enormous imperialist interest in Iran. Iran must also protect the imperialist interests in the whole area by repressing any armed patriotic forces and intervening in any region where these interests are threatened, thus Iran occupied our three islands and formed the reactionary pact with the Sultanate as a preliminary to the occupation of the Arabian shore of Ras Masandam to control the Herniz strait and to form joint bases with the US on the islands of Hawar and Abu Musa. Unashamedly Iran announced that with the permission of the British it could liquidate the revolution in two weeks.

* THE JORDANIAN REGIME STOOCGE OF ZIONISM AND IMPERIALIST MEANS of hitting at the revolutionary Arab forces.

Since the founding of the weak Jordanian structure, and after liquidating the Palestining resistance, this puppet regime has started to expand its armed forces. It has formed an armoured unit and heavy artillery and commando units not to fight Israel of course but to fight the revolutionaries of PFLOAG. A heavy artillery unit was transferred to Oman while military missions and Jordanian arms have been flowing to the Sultanate. Thus the Jordanian regime is utilizing its experience in repression in Oman and the Gulf.

* THE STOOGES REGIMES OF OMAN AND THE ARAB GULF :

These loyal regimes to imperialism and especially to US imperialism are servants to capitalist oil interests. The role of these tribal regimes is to facilitate reactionary and imperialist infiltration and to pave the way for the economic, military and political over our nation. Thus it is not surprising to find a recognised share for each of the imperialist and reactionary sectors. The US, Britain, Saudi Arabia and Iran divide our nation and each occupies a part of it. Our wealth is robbed by the monopolies of these countries impoverishing more than two million people in the richest area of the world. These monopolies gain more \$5,000 million annually from the riches of this area. Therefore the sharing of influence requires the division of our nation and transforming the rulers into agents to one or more of the imperialist and reactionary countries. Naturally these rulers change their loyalty and sell their services with the change of their masters. These regimes sold our national dignity by allowing the imperialists and reactionaries to build hostile bases on our soil while their armies butcher our people.

The role of these stooges is not, they have a real interest in the creation of this political climate. They are participating along with the oil monopolies in robbing the people of their wealth. Thus they perform their role within the framework of the imperialist plots. This is manifested in deceiving the masses on the one hand and oppressing them on the other and disguising the imperialist plots as acts of aid and friendship.

In the face of these plots ; what is to be done? Should the patriotic forces in the Arabian peninsula be content with counter propaganda in the face of this US scheme, which is part of an overall imperialist, Zionist and reactionary plan aimed at the liquidation of the revolutionary forces in the Arab world. The people of this area will utilise this imperialist-reactionary attack to mobilise and arm the masses to face the counter-revolutionary forces. This part of the Arab world has a wealth of revolutionary experience, clear political understanding, and a revolutionary leadership represented by the National Front and the Popular Front. Both represent the interest of the impoverished masses. The progressive regime in Democratic Yemen is a strong revolutionary base for our people. Here revolutionary changes are occurring daily in the interests of the masses such as mobilisation and arming of the people. Thus the whole of Yemen constitutes one combat area in the face of the enemy.

The liberated areas of Oman are also safe bases for our people. From experience our masses have learnt that armed and mobilised toilers led by a revolutionary vanguard with a clear political insight and directly linked with the interests of the masses can stand firm and reverse the temporary weakness into mounting strength, thus gaining greater victories.

The revolutionary forces must unite in a broad national front, discard all reformist policies and use all potentials to heighten the struggle to include the entire area.

STUDENT ORGANISATIONS IN BEIRUT AFFIRM THEIR STAND BY THE SIDE OFPROGRESSIVE FORCES IN DEMOCRATIC YEMENRED SEA COUNTRIES CONFERENCE THE FIRST OUTCOME OF ROGERS MOVES

ADEN, AUGUST 11- Arab student organisations in Beirut called in a statement issued today all progressive forces and Arabmasses to be completely alert for confronting the conspiracies of world imperialism and reaction which aim at toppling down the progressive regime in Democratic Yemen and liquidating the revolution of Palestine for ever, prior to toppling down the armed revolution in Oman and the Arabian Gulf.

The statement pointed to the attacks, and various methods and increasing activities carried out by world imperialism headed by America in the Arab area against the peoples who are endeavouring to liberate their territories and build up the new man of freedom, peace and progress.

Dealing with Rogers moves, the statement said that these moves reveal the intentions of the forces of imperialism which aim at preparing a heavy attack on Democratic Yemen beside the moves made by puppet Qaboos to Jordan and the despatch of Jordanian military experts and intelligence officers to the Sultanate of Qaboos and the training of Qaboos mercenaries in Jordan as well as Hussain's visit to Abu Dhabi.

The statement pointed out that the conference of Red Sea countries is regarded as the first outcome of these moves followed by the establishment of the so-called Command Council of anti-revolution headed by puppet AbdelQawi Mackawi which played a great role in pushing the countries of the military bourgeois regimes.

The statement said that these countries which allege and claim to be progressive are conspiring against the progressive regime in Democratic Yemen. The statement added that all these counter-moves by imperialism and its tools and all their conspiracies will be doomed to failure in front of the determination and steadfastness of the toiling Yemeni masses and the masses of the revolution in Oman and the Arabian Gulf.

The statement affirmed that all Arab student movements and organisations, emanating from their declared belief in the unity of the forces of Arab revolution and believing the unity of the forces of reaction in Jordan, Saudi Arabia and the Gulf Emirates in the Arab area is lying under the influence of the imperialist circles and forms danger to the national liberation movements in the Arab world, seems that the present circumstances all upon the progressive forces and the Arabmasses to be alert completely for confronting the conspiracies of reaction and its plans which aim at this stage at liquidating the Palestinian revolution for good and toppling down the progressive regime in Democratic Yemen prior to crushing the armed revolution of our people in the Arabian Gulf and Oman. They also demand the opening of Arab fronts of the Palestinian revolution and express complete rejection to abolish Cairo agreement or harm it. They also affirm that the campaigns to distort the strong friendship with the forces of the Socialist camp only serve the forces of world imperialism and its allies:

SISCO PREFESS U.S. SUPPLY OF ARMS TO CLIENT REGIMES IN A GULF.

WASHINGTON: 8-8.Mr.Sisco(Foreign Secretary Assistenc. Of Far East Affairs) professed that U.S. supplies military assistance to client regimes in A Gulf. M r. Sisco stated in his meeting with The Foreign Committe of The Senate House (TheU.S. is ready to supply military equipments to these countries(Gulf Countries) and train th.er armies to assist in defending themselves and maintaini internal order))Offcourse Mr.Sisso knows before any-body else that the Gulf Emirites have not been threatened by foreigns states except SAUDI ARABIA(which has territorial claims) and IRAN(which has occupied 3 islands according to U.S. arrangements.

Sisco is contributing in the U.S, campaign of establishing reactionary alliance(TheU.S. policy in this region states the encourgmmnt of IRAN, SAUDI ARABIA, and the small states in theGulf to cooperate sincerely in order to keep the region secured)

The supply of arms ;the training of the client armies , t h establishment of military bases and the formation of the reactionary alliance are all dedicated to impose the American peace which requires the liquidation of revolutionaries in D.YEMEN, and OMAN- A.GULF.

The American stability is not for the sake of people but for the maintainence of looting the reghn wealth by U.S. monopolies,for Sisso is frank in this point(TheU.S. is concerned with the stability maintainence in THE PERSIAN GULF (ARABIAN) due to economic reasons and stratigic reasons too.)He added(The U.S. has huge economic and stratigic interests in the oil of the GULF countries.)

TheU.S. is the leader of imperialist states and thus must impose the looting not only of its monopolies but also of otherimperialists' monopolies which SISSCO clears by sayig(The flow of oil is of vital interests to our allies of NORTH ATLANTIC PACT and our friends EAST OF SUIS.)

THE NAZIS HEIRS ACCELERATE THEIR SUPPRESSION OF PROGRESSIVE FORCES

COPLENZ:F.GERMANY 7/8- The M. Attorney HERBERT BROWN claimed that contacts has taken place between THE 2ND. SEPTEMBER group and a secret organiz-ation in The Sultanate of Oman . He added his false claims by saying that representatives of this Arabic orgnization has offered in M.East to some young Germans in their several meetings in German tows of which Berlin.

The falseness of this talk is clear for how such meetings are have not been uncovered and stopped by the new Gestabo before now.The astonishing point in Browns' talk is that M.EAST has become a secured place for political asylm where its people are suffering of repression or is it so unbearable for progressives in Germany.

The German authorities are using purely internal incidences as pretext to heighten thier suppression of Arabs in order to satisfy thier masters the Americans and the ZIONISTS.

PROGRESSIVE RESOLUTIONS ON ALL LEVELS

KUWAIT: The 6th. conference of (NUKS) ended on 7/8 by electing new Executive Committee and taking several objective decisions towards local, Arabian and Int. issues. Arabian Gulf. The Union always resisted the colonial plots and supported the revolutionaries in the gloomist conditions.

The phenomena of NUKS is admirable because this organisation has bounded itself to the popular masses objects, for which it dedicated its struggle.

The progressive role of (NUKS) is not limited to A.GULF but also covers the Arabian & Int. level which makes this struggle important in the Int. democratic struggle movement.

The resolutions of the conference about THE A.GULF states (The conference condemna all plots directed against the Arabism of the Gulf and D.
