Puppets Allegations

According to a statement made by a P.F.L.O.A.G. Official to Aden News Agency, the P.F.L.O.A.G. vehemently protested and denounced the false allegations declared last week by the Qaboosite puppet regime of Muscat that a transport plane of Democratic People's Yemen penetrated the Muscat stooges air space.

The P.F.L.O.A.G. official added that although the puppets and their foreign masters aim by these continuous allegations to convince the local, Arab and world public opinion with their deceptions and propandas on the reality and nature of our revolution, such falsifications reflect the upgrading impact of our fighters valiant blows confronted by the reactionary and invading forces.

Support & Solidarity Head Forward The More 9th June Revolution Gets Powerful

ON OCCASION OF
9TH ETERNAL
ANNIVERSARY

Hugely Crowded Mass Rally in P.D.R.Y. to Voice Firm Solidarity With Our People

The heroic Just struggle of the people of Oman and Arabian Gulf against the Qaboosite regime and the Iranian reaction was highly greeted by Comrade Abdul Fattah Ismail, NFPO Central Committee Secretary General, in addressing the hugely crowded mass rally organised on June 9th 1974 at the workers Confederation headquarters in Maalla on occasion of the 9th Anniversary of the June 9 Revolution.

The NFPO Central Committee Secretary General said in his speech to the masses attending the rally, "We warmly greet the prominent struggle of the people of Oman and Arabian Gulf since the break out of their revolution led by the People's Front for the Liberation of Oman and Arabian Gulf on June 9, 1965.

The Secretary General newly confirmed the firm stand of the 14th October revolution led by the National Front political organisation to the side of the struggle waged by the Omani people for dispelling the Iranian invaders and ending the Qaboosite reaction." He added, "The experiment of the national struggle proves that the colonialists have changed their colonial nature into the neo-colonialism form."

The NFPO Secretary General pointed out that the silence over the occupation of the Omani isles and the utilization of the Iranian military troops to carry out that criminal scheme is considered as the highest national treason. He called upon the Arab and international public opinion to mediate to hold up that brutal invasion. He also emphasized that the People's Democratic Republic of Yemen which successfully passed through the national lib-

eration epoch shall never forget their comrades still fighting for liberation and independence. Comrade Secretary General went on: "Our support for the armed revolution in Oman and Arabian Gulf is stemming from the 14th October revolution principled attitude in backing the national liberation movements."

In another speech delivered by Comrade Mehdi Abdulla Saeed, President of General Confederation of workers, he stressed the full support and firm stand of the Yemeni working class to the side of the Omani masses struggle led by the PFLOAG.

Comrade Mehdi Abdulla saeed emphasized on the joint Common targets of the 14th October revolution led by the NFPO and the June 9th revolution counter to the puppet Qaboosite regime, the Iranian reaction and imperialist influence. He spoke on the move and conspiracy of imperialist and reactionary forces aiming at surrounding the revolution and said, "disregard to any attempts, the revolution during the nine years realized several successes on the way to liberate the areas."

He denounced the Iranian reaction interference saying that such invasion move discloses the colonialist and reactionary alliance against the revolution of Oman and Arabian Gulf and against the progressive regime in PDYR.

Likewise, Comrade Ahmed Abdul Samad, Member of the Central Executive Committee of PFLOAG, delivered a speech in which he made it clear that the people's protracted war, which was and is being waged by our people and which is full of successes and sacrifices, has adhered the revolution to a mass solid ground

and has strengthened the principles and objectives of the revolution in the minds of the broadest toiling masses in a way that the road is cut in the face of any colonialist and reactionary tricks. He added: "The colonialists and reactionary forces reject to have our people enjoy its freedom and independence and control its homeland wealth."

He went on that the revolution, which proved to our people that the way to freedom, dignity and independence cannot be presented as a gift on a golden dish, cannot be proceeded without sacrifices and sacred blood as a cost for the ever dear freedom.

Summarizing the achievements realized by the revolution, Comrade Abdul Samad added: "We have liberated wide area of Dhofar up-country and, as a result, the people's power was set up through People's Councils in these areas. We also built up people's militia and the people's liberation army, educational institutions, literacy centres and other centres to furnish medical services, to drill water wells, to construct dams. In addition, social laws are enacted for the interest of the widest sector of our people." Our people could, as well, wage extensive political uprisings against the puppet regime and its colonialist masters.

"The revolution is continuously widening the gap of its friends on both internal and external levels and is always meriting the respected broad support of them", said Comrade Abdul Samad. He also stated that the revolution will not allow the imperialists and reactionary forces plotting schemes to easily pass and achieve their dreams. He added: "We see in the Iranian invasion danger a threat to the Arab national in gene-

ral and, thus, we are convinced that confronting this enemy is a nationalist question which necessitates the firm stand of all patriotic Arab forces to defend an inseparable part of its nation against the foreign intervention.

In conclusion, Comrade Abdul Samad warmly greeted that brave attitudes of PDYR towards the struggle of the people of Oman and Arabian Gulf and said that that support sincerely expresses the eager covetousness of this sister Arab country on the dangers entangling our revolution. He, also, greeted the honoured national attitudes of the Arab regimes siding the people of Muscat and Oman and expressed his deeply gratitude for all the international peace-loving and democratic forces in their support and solidarity with the revolution.

The representative of the National liberation movement in the Northern part of the Arabian Peninsula, addressing the rally, expressed tribute to the struggles and resistance of the PFLOAG. He confirmed the role of the reactionary Saudi Arabia to undermine the armed revolution in Oman and Arabian Gulf by colluding with the puppet Qaboosite regime and the Iranian reaction.

He condemned the repressive actions of the Saudi ruling family against the liberation movement in Northern part of Arabian peninsula and said that many of the militant fighters detained in the Saudi ruling family jails are tortured to death. He appealed to Arab and world public opinion to mediate to hold up the criminal barbaric campaigns carried out against patriots and militants in the northern part of Arabian peninsula, the so-called Saudi Arabia.

Handing Over Political Prisoners to British & Jordanian Intelligence in Muscat Never Mean Democracy For Abu Dhabi

Our Militant Masses,

At this delicate stage of the life of our Arab nation and in such difficult circumstances which are being lived by our people in Oman and the Arabian Gulf while facing the Iranian danger and confront it to defend the Arab nation and the Eastern frontiers, the Government of Abu Dhabi is handing over 52 Omani detainees to the rulers of Muscat.

The Abu Dhabi Government has arrested these Omani citizens a year and a half ago and intimidated against them the Jordanian and savage torture and did not forward them to trial or direct any charge against them. It even handed over the detainees in one lot after another to the traitorous government in Muscat. A while ago it handed over the first batch and later handed over militant Murad Abdel Wahhab only two months ago to the Qaboos British intelligence. In the past few days it handed over the biggest batch of prisoners to the traitorous rulers of Muscat.

The Abu Dhabi Government which is now beating the drums for the forthcoming democratic era wants to get rid of the political detainees by distributing them to the other traitors in the areas of Oman and want to impress people that it released the detainees and that it holds not even a single political detainee as well as to forecast the signs of Zaid's fake democracy which is guarded by the Jordanian and British intelligence all over the arena of North Oman. The People's Front for the Liberation of Oman and the Arabian Gulf sees that this step is another part of the imperialist plan to re-arrange the conditions of the puppets in order to stabilise peace and stability of the oil monopolies in the Arabian Gulf area.

It now wants to get rid of all opponents and all militants by sending them to Kot al-Gallali in Muscat so that the rest of the cartoonist dummies in the states enjoy peace and stability.

The People's front for the liberation of Oman and the Arabian Gulf condemns such criminal act and holds the Zaid government basically responsible for any crime committed by the traitorous rulers of Muscat against these detainees. We also warn the Qaboos clique and their masters the British against committing any other crime against these honest citizens whom it alleges will be forwarded to trial to mark the passage of one complete year

on the crime committed by it last year against ten Omani militants.

We appeal to all popular organisations, democratic forces and peace-loving forces in the Arab homeland to interfere and to perform their duties for the release of these detainees.

We also appeal to all peace and democracy-loving forces

and corporations which kept on their shoulders the task of defending the human rights to interfere to save the lives of these citizens from the executionists of Qaboos, the Svac and the puppets of King Hussein as well as the British colonialists.

Long live the glorious revolution of 9th June

Long Live the steadfastness of the political detainees

Freedom is for the honest citizens in the prisons of al-Gallali, Beit al-Falag and Sallalah.

Death is for traitors and executionists.

THE PEOPLE'S FRONT FOR THE LIBERATION OF OMAN AND ARABIAN GULF

THE ARAB LEAGUE COMMISSION RESPONDS TO PFLOAG ATTITUDE

THAT ITS TAKE-OFF POINT SHOULD BE LIBERATED AREAS

Comrade Khaled Amin left the liberated areas via Aden for Cairo carrying a message from the Central Executive Committee of the People's Front for the Liberation of Oman and Arabian Gulf to Mr. Mahmood Riaz, Secretary General of the Arab League and President of the League's fact finding commission. Comrade Khaled Amin will make arrangements for the travel of the commission to the liberated area with the Secretary General where it will continue its assignment. This was announced by the representative of the PFLOAG in Aden to the Aden News Agency. The comrade representative of the PFLOAG said in his announcement that the Arab League committee assigned to investigate facts in Oman asked for a representative from the PFLOAG to discuss with him the arrangements of the Front for the Liberation of the

Oman and the Arabian Gulf to meet with its entry into the liberated areas in the Southern region of Oman in fulfilment of Arab League decision issued last March which calls for the despatch of a fact-finding commission to Oman to know the reason for the war now raging there after ascertaining the stands of the PFLOAG refusing to sit with the commission outside the liberated areas of Oman.

The representative of the PFLOAG explained in a statement that the People's Front for the Liberation of Oman and the Arabian Gulf sent Comrade Khaled Amin as representative for it to the Arab League Commission for making the arrangement connected with its entry into the liberated areas in Oman. He added that the PFLOAG representative carrying a message on this question from the Central Executive Committee of the People's

Mr: Mahmood Riaz, Secretary General of the Arab League.

CENTO PACT THROWS ITS WEIGHT TO IMPEDE OUR TRIUMPHANT REVOLUTION

The CENTO Pact supported the military interference played by Iran in the Sultanate of Oman.

This came in the statement issued by the CENTO meetings held in Washington and published by the Iranian newspaper Keihan issued on 26th May. The forces of the pact, which includes America, British, Iran, Turkey and Pakistan, will stage huge Military manoeuvres following the meeting of the Ministerial Council of the pact in Washington.

The newspaper quoting diplomatic circles in London, to safeguard the pact at this period in particular is an important thing to Iran more than any other member-State.

FRENCH LE MONDE REFERS TO IRANIAN INVADING FORCES FAILURE

The French Le Monde newspaper said that the Iranian military landing in Oman did not cause any anxiety to the Arab leaders who usually hasten to condemn any foreign interference as they have not adopted any attitude on the Iranian interference with the exception of Colonel Qaddafi who expressed his dissatisfaction by the opening of an office for the extreme, according to the Le Monde, PFLOAG Organisation in Tripoli. This came in a report prepared by the newspaper on the Iranian military interference in Oman which was published under title "Iran's role in Dhofar."

The Le Monde added: "The important Arab press circles from Cairo to Riad kept quiet over this incident which proved that Iran is the guard of the Gulf." The newspaper said that this strange silence encouraged Teheran and Muscat to show the cooperation and express it openly during the official visit

which was made by the Sultan of Oman to Iran in the beginning of last March. The newspaper added that the participation of the Iranian forces in the war now going in Dhofar was the clearest evidence for this cooperation.

The Le Monde said that Sallalah-Thamreet zone - Red Line was the basic target for all military campaigns which took place in the past three years. The newspaper confirmed that all previous campaigns, the last of which was the October - November, 1971 campaign carried out by the Red Devils, have failed.

The Le Monde continued to confirm that since the beginning of 1972 it was certain that the (Omani) army whose number was raised from three to twelve thousand soldiers in less than two years is unable to repress the rebellion and Arab State was prepared to send its

forces for taking part in the war in Dhofar.

USSR, AS A MAJOR WORLD PEACE FORCE, EXPRESS ITS ANXIETY TOWARDS IRAN ARMAMENT

The leaders of the Soviet Union expressed indignation and anxiety over the aggressive attitude followed by Iranian reaction in the area of Oman and the Arabian Gulf.

The Agence France Press, which published the report, said that observers see that the criticism made by the Soviet Union against Iran through the Pravda, organ of the Central Committee of the Soviet Communist Party, are regarded as serious warning to the Iranian Government.

The agency France Press adds that Soviet Prime Minister Kosygin notified the Iranian officials during the visit made by him to Iran in March last year his government's anxiety toward the huge arming of Iran by the United States.

World Solidarity With Our People's Revolution Demonstrated

The Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf received several cables of congratulations on occasion of 9th June Revolution Ninth Anniversary.

According to the cable extended by the USSR committee of Afro-Asian solidarity to the PFLQ, the committee said: On occasion of your people's glorious revolution Ninth Anniversary, we express our fraternal greetings and wholeheartedly congratulations accompanied by our deepest wishes to the leadership and members of PFLQ and all patriots in Oman.

The cable stated that the flag of freedom hoisted by virtue of the armed struggle has been an indication of the masses new life in the liberated areas.

The cable highly hailed the measures taken to wipe out the backwardness and to create new prospects for peasants and fighters education.

The Soviet Committee of Afro-Asian Solidarity went on that the peace-loving forces, all democrats and the world public opinion are fully cognizant that imperialist and reactionary forces in the area are establishing military bases to unleash military interventions with the aim of hampering the national liberation movement led by PFLQ and, correspondingly, impose their direct omnipotence on the petrol sources. The Committee, in conclusion, expressed its absolute support and solidarity with Dhofar revolutionaries and showed its conviction and confidence of the decisive victory of the people, just cause under the leadership of PFLQ.

The PFLQ Central Executive Committee also received the following cable from the German Democratic Republic's Solidarity Committee:

The GDR people pursue with extreme concern and profound sympathy the heroic struggle led by PFLQ against imperialism and social progress. The GDR Committee of Solidarity with the people of Oman and the Arabian Gulf confirmed the ceaseless support and solidarity with the PFLQ.

The great successes achieved by the people of Oman and the Arabian Gulf on all military, political and social levels were greeted also by the Solidarity Committee with Oman and Arabian Gulf Revolution in London. The Committee pointed out that this ninth anniversary of the revolution forms an eminent landmark in regard to the growing position of PFLQ and the support which the progressive quarters in Britain increasingly render.

Meanwhile, in a cable received by the PFLQ from the Arab Students Union in People's Republic of Bulgaria, the Arab students warmly congratulated the people of Oman and Arab-

ian Gulf on his historical occasion and referred to the imperialist and reactionary wicked methods aiming at striking the 9th June Revolution saying that Such methods are daily wither-

ing away due to the steadfastness of the people of Oman and Arabian Gulf by the continuous firm stand of the Arab and international peace-loving forces with your just cause.

PALESTINE LIBERATION MOVEMENT CONDEMNS QABOOSITE PUPPETS, BRITISH & IRANIAN DOMINATION

The Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf received the following messages on occasion of the 9th anniversary:

"We renew our firm support for the just struggle of the Omani people for freedom and highly value the combative and vanguard role of the PFLQ in the struggle against imperialism and reaction in the Arabian Gulf and the Arabian Peninsula and strongly condemn the Iranian military interference against the Omani people revolution and also condemn the British and Jordanian interference and the Saudi plotting against the revolution in Oman."

"We also deplore the conspiracy which aims at encircling the revolution of the people of Oman under allegations by puppet Sultan Qaboos that the difference is between him and the Government of Democratic Yemen and we regard it as a duty of the Arab League to lean by the side of the right of the Omani people for freedom and to recognise the control of the revolution on the liberated areas."

"We also deplore the handing over by the Abu Dhabi government of Omani detainees to the authorities of the Sultan in Muscat."

POPULAR DEMOCRATIC FRONT FOR LIBERATION OF PALESTINE

"While fighting in very tough circumstances, the continuous conspiracies and fiercest attacks by the Iranian mercenary forces and the Qaboosite, Hashemite and British hirelings backed by American imperialism, you are only proving that you are a militant people deserving victory and freedom and that the increase of these conspiracies during the recent period only confirm that you are marching forward towards your strategic objectives."

"We are confident that victory will be at the end of the course by your side due to the will and determination of your fighters"

PALESTINE NATIONAL LIBERATION MOVEMENT (Aden office)

"In the name of the Popular Front for the liberation of Palestine we express to our masses in Oman and the liberated areas through the vanguard of the armed revolutionary struggle the PFLQ the best combative wishes and comradeship solidarity."

"The reactionary Iranian attack on the Dhofar Region to hit the armed people's revolution which constitutes a direct danger to the oil monopolies in this lively area aims at backing and establishing imperialists and reactionaries' interests and liquidating armed revolution which rejects classical and nat-

ional suppression."

"The American Geneva conference and the mediation committee emanating from the Arab League, which aims at diverting the struggle in the area and taking Democratic Yemen as a basic part in the conflict now going on and defacing the identity of the main party - the PFLQ the only advocate of the wishes and hopes of the popular masses in Dhofar and Oman for freedom and progress, are only parts of the chains conspiracies faced by your revolution."

POPULAR FRONT FOR THE LIBERATION OF PALESTINE

People's Republic Of China & DPRK Reaffirm Full Support For Our People Just Cause

Comrade Saeed Masood, representative of the People's Front for the Liberation of Oman and the Arabian Gulf in Aden received at ten in the morning of 9th June Comrade Political Counsellor in the Embassy of the People's Republic of China to PDRY. During the meeting the Comrade Political Counsellor extended the greetings of the people and government of People's China to the people of Oman and the Arabian Gulf on the occasion of the Ninth Anniversary of the revolution of 9th June and expressed the admiration of the people and government of People's China for the struggle waged by our masses in Oman and the Arabian Gulf and their realisation of the nature of conspiracies which are being woven against the struggle of our people and their revolution. The Comrade Political Counsellor in the Chinese Embassy in Aden also said, "We are only pleased to extend on this occasion our heartfelt greetings and reaffirm the backing and consolidation of the people and government of People's China for the struggle of the people in Oman and their solidarity with their revolution against the common enemy."

Likewise, Comrade Kim Eyonki First Secretary in the Embassy of the Democratic People's Republic of Korea conveyed the greeting of the people

and government of DPRK to the people of Oman and the Arabian Gulf on occasion of the Ninth Anniversary of the glorious revolution of 9th June and expressed the well wishes of the people and government of Democratic Korea for the victory of the glorious revolution of 9th June.

KIM IL SUNG WISHES EVERY SUCCESS FOR OUR REVOLUTION

The Central Executive Committee of the People's Front for the Liberation of Oman and the Arabian Gulf received a reply message from Comrade Kim Il sung, President of the Democratic People's Republic of Korea, in reply to the message sent by it on the occasion of 1st May. The message was conveyed by the Ambassador of the Democratic People's Republic of Korea to Democratic Yemen and reads as following:

"In reply to the message sent by you to Comrade Kim Il Sung President of the Democratic People's Republic of Korea on the occasion of 1st May, I am pleased under his authority to convey to you his thanks wishing you every success and victory in your struggle."

The 9th of June this year coincides with the ninth anniversary of the firing of the first bullet from atop the Dhofar mountains to declare the start of the armed struggle and the protracted people's war to rid our people of the British occupationists and their stooges the puppet al-Busaid family and other traitors orbiting in their circle. Since the 9th of June 1965, our people have confirmed on more than one occasion and through practical deeds that the road through which it is possible to make the imperialist's bow and to force them surrender as well as not to allow them overcome the destiny of our people is the road of the protracted people's war.

During the past nine years, our people incurred many of the heroic sacrifices and realised many of the heroic victories and revolutionary accomplishments in the liberated areas which we regard as the pride of our people and a proof of their abilities and creative talents. They also give us the will and determination to continue the struggle for realising the objectives of the people on the entire soil. During these years, the revolution managed to build a people's army and to arm the masses in the liberated areas and to introduce social, medical and educational services to the citizens. It also knocked down many social epidemics which obstructed the development of our people in the past. The revolution through People's Councils elected by the masses themselves managed to make the masses share in the administration of their affairs by themselves at all levels.

If our masses in the past celebrated the revolutionary anniversary year by year in Muscat, we are celebrating this year's anniversary in circumstances which differ to those existing in the past year and signified by the entry of new and serious factors into the arena of the struggle between our people and the colonialists, which factors not only threaten our people in Oman and the Arabian Gulf but also threaten our Arab nation and world peace in view of its serious results to this sensitive part in the world. Our people raised the arms because they cherish and want freedom and struggle with all their potentialities and power in order to bring closer the hour of getting rid and checking off the invaders and traitors in Muscat. Our people, in their long history, were and are still loving justice, peace and freedom and hate aggression on others

but will not hesitate to incur dear sacrifices for checking off any foreign aggression on their land.

So, our people raised the arms several times since the first moments in which the British landed in Muscat and stationed their presence and turned it into a British colony spreading in it their bases and having control over everything. Our people were also realising thoroughly well the closer link between the traitorous al-Busaid family and the British presence.

The family has opened the doors of Oman for the needs of the colonialists and smashed against the wall its history and the ambitions and wishes of the Omani people and stood reluctantly against their wishes. This stirred the anger and wrath of all masses and the Omani national movement laid down on its shoulders the task of toppling down the al-Busaid family whose history is linked with the occupation and national subjugation and the sale of the Omani soil to the occupationists and the link of the struggle against the colonialists with the struggle for toppling down of the al-Busaid family to an extent that they cannot be separated.

The revolution of 9th June clearly expressed these national tasks since the first moments in which it started the struggle and declare that it will not abandon the arms before realising these legitimate objectives.

Masses of our militant People, The British colonialists tried to confront the revolution of Gebel Al-Akhdhar in 1957 and to end it with iron and fire and so recruited thousands of mercenaries and waged hundreds of military battles in DHOFAR. But the determination and insistence of the people to wrest victory from the colonialists damaged and destroyed all these bids and military campaigns and the imperialists could not find a means for getting out of the embarrassment in which they fell other than to carry out some repairs in Muscat and lay down new tactics for aborting the revolutionary current and pulling

away masses from the revolution.

In this way, a new hero was born for a stage play often repeated in more than one area in the Gulf and British laid down the military, political and economic plans for repressing the Omani people and ending the armed revolution in Dhofar.

After the Qaboos stage play the foreign companies investments poured and the country was widely opened for the foreigners and the American and European oil companies were given extensive concessions for exploring minerals and oil and looting the fish and agricultural wealth. The military circles laid down many of the military plans for hitting the revolution from the inside and outside through the secessionist campaign in September, 1970 and the campaign of October-November 1971 to the campaigns of al-ammer and the Central and Western Regions. But the determination of the revolution to continue the struggle and to expose the Qaboos stage play as to heroically confront the military campaigns have all foiled these plans and placed the colonialist circles in a critical position.

We in the ninth anniversary of the revolution and after the failure of these plans and following the heroic confrontation by our people of Iranian invasion, we confirm and stress on the right of our people to reject this puppet rule and the foreign presence and their right to raise the arms and continue the struggle against this puppet family and the British and Iranian presence.

The rulers of Muscat who did not hesitate to call the British fleets for hitting the fortresses of the revolutionaries of Oman throughout their black rule and did not hesitate now to recall the Iranian army after the British have failed to face the revolution proving to the entire world that they betraying the national soil and are prepared to commit national treason in order to safeguard their narrow interests and protect their collapsing rule.

We hold Qaboos and the traitorous clique in Muscat fully

historically and nationally responsible for the entry of the Iranian Army into the Omani territories and we see it part of our national and patriotic duty to fight for toppling down their rule and establishing a national regime protecting our sacred soil and safeguarding its prestige and independence. Our people reject all false allegations which justify the occupation by Iran of part of our homeland and the march of the Iranian army on the southern region of Oman and throw responsibility for this criminal act on the revolution. We regard this claims as a submissive and traitorous call aimed at forcing our people to bow to British colonialists and their servants in Muscat and an exposed justification for the national crime committed by Qaboos and his clique and which cannot be done except by the forces eager in the first place to crush the wish of our people and their ambitions and help the puppet regime in Muscat.

Masses of Our Struggling people, Our Glorious masses,

Our country is facing real danger at these decisive moments in its history more than any time before. These dangers emanate in the first place from the imperialist and reactionary extensive unity and from the fierce attack launched by the colonialist circles on our homeland in view of the important strategic position enjoyed by it and the vast oil wealth existing in it or passing through the Hormez Strait. Moreover this unity is closely linked with the American plan in the middle East area which aims at liquidating the Arab national liberation movement and subjugating the Arab national regimes which refuse submissive solutions and establishment of Zionist entity and imposition of liquidatory solutions on the Palestinian people and the other Arab peoples.

This plan appeared clearly and its wheel began to move quickly following the national war waged by the Arab armies and the Palestinian revolution in which important military and political victories were

-More Determination to Evac -Al-Busaid Puppet Ruling Far -HIGHLY TRIBUTE TO 9th

-Profound Gratitude to World Peace And -Rejection of Mediation Not Proceeding Fr

adequate Foreign Presence Family Must be Wiped Out JUNE MARTYRS

which made the imperialist forces review their total policy in the area and the nature of the forces upon which they depend as well as the dangers which threaten the American oil interests and the other interests of imperialism as a result of the greening of the massive and national tide which coupled the glorious October war and the greening of the demand for the nationalisation of the oil interests and for hitting the American interests in the Arab area and in particular in the Arabian Gulf.

In the face of such a situation, American imperialism revealed its fists and hastened to send its Secretary of State on deserted trips to impose the peace of the imperialists on our Arab peoples. It also gave the green light to the Iranian reaction to invade the Omani territories and to help the rulers of Muscat in liquidating the armed Omani Revolution in the Region of Dhofar at a time in which the American Israeli and Arab reactionary circles weave conspiracies for liquidating the Palestine revolution and clearing the gains of historical stage completely from the Arab struggle.

Emanating from our understanding of the fateful link between the peoples of the Arab nation and their revolutions and national regimes, we see that the escalation of the aggressive war on our Omani people is closely linked with the escalation of the Israeli and imperialist aggression in the Arab east arena and closely linked with the extensive conspiracies which are woven against the progressive regime in Democratic Yemen and against the national regime in sister Iraq.

The arena of Oman and the Arabian Gulf is dear to the imperialists and their monopolistic companies and to their pockets which are full of the wealths of our people and are very eager to stick to it and are ready to undertake extensive typical forfeitures and to establish weak councils in the Arabian Gulf States in order to str-

engthen these reactionary regime and legalise the conflicts in the area as well as to guarantee the Monopoly of oil and its marketing and play with the oil prices in order to gain imaginative profits.

The imperialists are working to re-arrange conditions in these States. They established national councils, in these states at a time in which they were holding tens of detainees in the Bahrain prisons and in a state of emergency. They are now re-arranging conditions in North Oman at a time in which puppet regime in Abu Dhabi hands over the best Omani militants to the British intelligence in Muscat prior to holding new constitutional reforms in this artificial entity which was cut by the imperialists from Oman and established in it feudalism for the reactionary sheikhs.

The Sultanate of Oman occupies a prominent place in this area due to its strategic position and its wealth and the imperialists are working to escalate their aggressive war in order to ensure the stability of their monopolies and interests in our country.

The increased importance of this area and in particular at the oil level, made the Americans give it increasing attention and plant in it and around it extensive nuclear military bases. Moreover, the increase of the revolutionary activity in Oman and the failure of the British to face it, made the American peep their heads more increasingly through puppets in Teheran. In this way came the Iranian campaign under planning from the CENTO PACT circles and under direct supervision from the American Central Intelligence Agency and with full cooperation from the British circles in Muscat.

If we realise the basic enemy who faces our people and the peoples of the Middle East area, and resembled in the imperialists topped by American imperialism, we confirm the imperialist shape and role undertaken by Iran in our homeland and the extensive greeds to occupy more islands and territories and the despatch of more forces from its armies to the area in order to annex the Arab territories to the empire of Shah of

Iran and to deface the national entity of our homeland.

We discard all allegations and distorted defence undertaken by the puppet regime in Muscat to defend its Iranian masters as the Iranian army which occupies the Omani towns and camps in many desert Areas in Dhofar, did not come to establish some of the development projects, nor did it come in the form of military experts or for performing certain tasks after which it will leave as it claims and some of the traitors claim in Muscat, but came as an invader and aggressor on our homeland and people and as part of an extensive plan of which the Shah of Iran dreams in order to kill and slay our people and liquidate their revolution.

Therefore, we regard the duty of our people to defend their homeland in the face of the British and Iranian aggression and to continue the struggle until the invaders are cleared out and the national objectives of the people are realised.

The Iranian invasion and the Iranian greeds in the Arabian Gulf area aroused the enthusiasm of all national and progressive groups and aroused the enthusiasm of all national countries and the friendly countries which found in the Iranian step a danger threatening peace and security in the Arabian Gulf area and an interference rejected and refused by all international laws and rules in the domestic affairs of our country.

The Arab League found that its national duty is to interfere to find our facts on the internal conditions of the al-Busaid Sultanate and the size of the foreign interference. So it sent a committee in this respect to Muscat.

Our people sees that it is the duty of all Arab countries and in particular the national countries to stand in the face of the Iranian danger which does not threaten the national forces and countries only but also threatens all eastern borders of the homeland and makes it subject to be swallowed by the Iranian expansionist reactionary regimes. It also sees that the Arab regimes are in the face of a real test to prove their eagerness about their Arabism of

our homeland and their preparedness to stand by the side of our people at these decisive moments.

We see that the basic task of the Arab League and the Arab countries is to work for checking off the Iranians and British from Oman by helping the revolution and by regarding this help as a duty and national duty dictated by the supreme Arab interest. We also see that the Arab League has to expel the puppet regime from its galleries and to openly stand by the Omani people.

We refuse mediation with the traitorous regime in Muscat and affirm that the Qaboos clique is not but a tool in the hands of the British colonialists and their American allies who are administering the affairs in Oman. If we had fought throughout the past years for realising objectives, national and democratic aims of our people, the Iranian invasion then has added to our previous responsibility which we will not hesitate to confront whatever the sacrifices be and whatever be the difficulties to be faced by us.

If there exists anyone who imagines that national duty calls upon us to stretch our hands to this puppet regime, we then see that the only guarantee for safeguarding the Arabism of our homeland and the prestige of our people is to topple down the traitorous regime in Muscat and to establish a national regime satisfying the people and pleasing the entire Omani people and places on the shoulders of our people the tasks of defending every foot of the Omani territories in the face of the Iranian greeds and continuous interference by Iran and the imperialists in our domestic affairs.

Masses of Our people and their National Forces,

At these historical moments we turn to all Omani national elements inside and outside the regime and call upon them to unite and work jointly for saving the homeland and expelling the occupationists and their servants in Muscat.

Defence of the homeland against the colonialists and invaders is a duty upon all Omanis no matter how different are their political views and whatever the secondary differences between them be, as the danger faced by the homeland imposes on all the duty of observing solidarity and standing as one row in a united front with the basic aim of expelling the invaders and clearing the foreign presence and the traitorous rule in Muscat.

from Liberated Areas

Working Class Enemies Disguised As Defenders of Its Interests

The labour and mass movement is waging an increasing struggle against the unions of the medieval ages and against their deeply-rooted reaction which worked to obstruct the labour movement by giving way for side issues; such as mingling, the right of sects and the like; which imperialism was brilliant in using in more than one area in the world.

During the few weeks, contradictions sharply appeared within the ranks of the reactionary camp and the tribal authority as follows:

1) It appears that the general line followed by the Bahraini authority is guided by the instructions and recommendations brought by Amin Nakhla, delegate of the American Central Intelligence agency in 1972, as he recommended that the necessity of absorbing the revolutionary labour movement through a reformatory plan based on reformatory and young elements from the ruling family and by depending upon a group of intellectuals marching in the American orbit. The American intelligence showed crown Prince Hamed bin Issa who is these days paying visits to every labour strike and distributing free promises and introducing himself for opposition provided he adopts its projects, and agrees with it there are forces and elements which must be removed so that Bahrain marches on the plan of American renovations.

Since the Americans have the basic influence over matter of affairs through many corporations created by it after and before independence and as they have clearly laid down the thesis that they are cherishing peace and security in this very sensitive area, they are pushing things towards the grant of certain abdications and closure of aid to Bahrain so that it can absorb the labour wrath and uproot the negativisms of the British stage.

2) In confronting this current there appears the deeply sunk reactionary elements which played a filthy role against the massive movement and under the curtain of adhering to the Islamic religion and fighting imposterity and the like of such posters which the colonialist circles have been clever in giving prominence to. These elements launched a campaign against the American attitude and perhaps those prominent men behind such reactionary attitude are Khaled bin Mohammad (who burnt the uniform of the National Scout of the Higher Executive Board in 1954) and Mohammad bin Salman who is staying at his headquarters at

Rifa with the aim of increasing the number of lands, horses and camels in his possession.

This reactionary attitude is depending upon the Saudi family which does not like any development of conditions in this Peninsula and fears from its effects on the eastern area; it is necessary to pay attention that there are wide contradictions inside the Saudi family, the deeply-sunk reactionary here enters into alliance with the deeply-sunk reactionary there.

3) The reactionary current inside the family finds its prey in the reactionary elements who include religious men and in particular some of the elements which were successful in the elections. These forces were astonished by the extensive uplift realised by the labour movement and the expansion of the class struggle and participation of extensive groups of the masses which take part in the race of the political activity. In the face of this uplift, numerous forces have entered into alliance which is made of the reactionary elements of religious men facade behind which it hides its distorted attempts to hit the labour movement and at the same time to safeguard the procession of the authority. In such way, the reactionary attitude laid down the project of non-mingling in order to distort the labour movement and deviate the attention of the masses from the basic issues by stirring reactionary traditions planted by the Turkish and British colonialism. When this group found its failure in effecting the passage of such game, it organised roudy demonstrations with different trends with the misguided peasants.

Undoubtedly, such contradictions with in the ranks of the family and within the ranks of reaction must be exploited in order to expose position of the deeply-rooted reactionary forces so that the deeply-rooted reactionary attitude is defeated and the masses are freed from it. But this is connected with the ability of the national forces to understand the extent of the imperialist plan and the class and social forces upon whom it depends. Moreover the circles of imperialism do not work on the front of its allies only but also works to break the labour and mass movement at a time in which the need strengthens for unity and cohesion.

Perhaps the attempts or bids serving the plans of the authority is to create more than one trade Union organisation for the labour movement in the working utilities and distribu-

tion of charges against the revolutionary sides as well as to spread distortions amidst the labour ranks. Such a situation will be exploited by the authority more than any other thing for the following:

1) When the majority of workers discover that a sharp conflict inside its ranks might abort the gain of one stage completely, not any reason but for an individual trend possessed by some national groups, in order to make many of the labour gatherings abandon to work.

The authorities will take from such bids a justification for not responding to the demands of the trade unions on the grounds that the workers are unripe.

3) Many of the elements of this authority will infiltrate inside

the labour movement in order to deepen contradiction on a completely union questions to ensure its control over this movement. We will not be revealing a secret if we say that the British intelligence sent a number of its elements on labour courses in order to become its tools in future inside the union movement.

The real understanding of the requirements of the current stage in Bahrain calls upon us to stand firmly against the deeply-rooted reactionary tide and to stand firmly against any secessionist bid inside the ranks of the labour movement. The matter requires the unity of the broadest masses and democratic forces in order to foil the plans of the puppet authority.

Iranian Fighters are Also Resolutely Resisting The Shah Reactionary Regime

The embargo policy followed by the Teheran regime and the huge efforts made by this regime for defacing the struggle of the Iranian people are of no avail any more as recently the Palestine news agency Wafa published reports on the military operations carried out by the Iranian revolutionaries against the Shah's regime.

The telephone cable between Teheran and the town of Creg was blasted up disturbing the business of the American factories in this area numbers a bout eleven.

As a result of this operation the factories were forced along with the Royal Sports Town to a telephone line temporarily replacing the blasted line.

— During the past two months, the revolutionaries carried out several operations for confiscating the weapons from the security and army forces. The operations ended with the death of some of the puppets and ensurance of weapons for the revolution.

— The revolutionaries managed during the repeated clashes with the regime's puppet to kill a number of police forces. Some of the militants were martyrised including Youssef zerka (Asfahan) worker, Jawad Rabiee, worker and Ali Walli Boor (Teheran).

The importance gained by these operations is attributed to the fact that were carried out under very terroristic conditions and in a period in which

the Savac and other repressive machineries are carrying out extensive repressive activities and are using methods of torture never known even in the prisons of fascism and in a stage in which the regime with all its weight and conspiracies, is being backed by its imperialist and Zionist masters to knock down the struggles of the revolutionaries. For this reason, the puppet Shah-in-Shah regime brought modern equipment and started to use new methods of torture and terrorism, namely to catch hostages from the children and woman and aged people in order to force the militants to hand themselves over. To beat with whips every person suspected of sympathising with the revolution not to announce the arrest of the captive militants. There are many militants who were arrested a year ago and their relatives know nothing about their fate. Also, martyrdom under torture became something ordinary and the last to be martyrised under the savage torture faced by the militants included Shamaned Khastah, Khalil Tabatabai, Ride Dubiah and Dhia al-Haq. In addition, the Helms covering the head so that the shouts of the prisoner are not heard under torture and reflect the shouts of the prisons back to his ears standing as another way of torture. These helmets are equipped with electrical instruments connected with the nose, ear and tongue and shake the prisoner with electrical shocks to pave for the absorption of blood.

The Arab Press Comments On Arab League Comission Assignment

The Arab Press continued to analyse and comment on the assignment of the Arab League Commission for fact finding conditions in the Sultanate of the British.

On this topic, the Lebanese newspaper "Addiyar" wrote in its of 20th May:

"The movement of the Arab League came after the failure of the Sultanate of Oman and Iran and the British forces to knock down the revolution. On the situation lived by the hiring regime in Muscat, the

newspaper said: The regime is now living in an atmosphere of great failure which it suffered in spite of the British and Iranian aid. This is in addition to its failure to sell itself to the Omani public opinion as a reformatory successor to its predecessor Sultan Said bin Tamour. The newspaper gathered that such weakness will make Qaboos accept what the newspaper called mediation, but the newspaper said: The insistence of Britain not to withdraw from its military bases in the Sultanate of Oman

will weaken the acceptance of Qaboos.

The newspaper warned the Arab League Commission from the tricks of the Muscat Regime and said: "the revolution which did not abandon the arms will continue to hurl its enemies with the Clashnikov rockets and other developed weapons which will exhaust the forces of the Sultan and the British and Iran in other areas to be added to the liberated areas".

The Lebanese al-Destour newspaper of 20th May also

wrote saying: Mahmood Riad, not knowing it before, was surprised at the airport and streets of Oman and Muscat with men adorning the military uniform but not related to the Arab nation. He heard them talk the Iranian language and the Pakistani language and heard the others speak English. Undoubtedly during his tour in Muscat and Oman he also heard those speaking the Saudi accent. All these work against the revolution and against the flare up of the revolutionary tide to the capital of the Sultan:

PFLOAG STATEMENT ON NINTH ANNIVERSARY (Cont'd)

We also appeal to all national forces and elements all over the arena of Oman and the Arabian Gulf to stand by the side of the Omani people and their armed revolution and all assistance, morale and material consolidation is extended to them because they now stand in the front line defending the Arabism of the Gulf against the perils of Iranian expansion and in the face of the extensive American attack.

We ask all forces and Arab national governments to stand by the side of the struggle of our people and to form an extensive solidarity front against the huge dangers threatening the Eastern borders of the Arab homeland.

We on this immortal occasion declare our firm determination to continue the armed struggle against the foreign presence and puppet al-Busaïd family whatever the sacrifices be and whatever their unity with the imperialists' forces be against our people and revolution. We also praise on this occasion the extensive solidarity extended by the Arab and international organisations and personalities and also praise the support and backing extended by the Arab national countries and the Socialist countries which have had a great role in the consolidation of the abilities of our people and their steadfastness to confront the invaders and to inflict military and political defeats upon them and their servants in Muscat.

We also affirm on this immortal occasion our principled stand by the side of the Palestinian revolution and the right of the Palestinian people represented by the Palestine Liberation Organisation in adopting the stands necessary for continuing their legitimate struggle for complete liberation of their national soil. We also praise the heroic and gallant and principled stand taken by People's Democratic Republic

of Yemen under the leadership of the National front political Organisation towards our just struggle. We also greet the masses of the Yemeni people for the endless consolidation given to our armed revolution and praise all progressive accomplishments and the wonderful massive initiatives which turned Democratic Yemen and made it stand in the forefront to confront the plans of the imperialists and the reactionaries and to be one of the main fortresses of the Arab liberation movements.

We appeal to all liberation and progressive forces to stand firmly for backing the steadfastness of the Yemeni people in the face of the extensive conspiracies weaved by the circles of imperialism and Iranian and Saudi reaction. We also declare our support for the struggle of the Yemen people represented in the national and democratic

vanguards in the north and south for realising the united democratic Yemen.

On this occasion, we declare our full support for the struggle of the national liberation movement in the Arabian Peninsula (Saudi Arabia) against the dictatorial and reactionary rule and see that the forces of the revolution all over the Arabian Peninsula are to stand firmly by the national and democratic which is weaving conspiracies against our people in Oman, the Gulf and Yemen.

We also declare our full support for the struggle of the Iranian people and their armed national movements for toppling down the expansionist and dictator Shah-in-Shah regime and for establishing a progressive national regime ensuring all national and democratic rights for the Iranian people.

We also declare our full support of the heroic struggle waged

by the African peoples in Eritrea, Guinea Bissao and the Green Cape Islands as well as Angola and Mozambique for national independence and against racial discrimination in Rhodesia and South Africa. On this immortal occasion we are standing in tribute of the heroic martyrs who irrigated with their blood the soil of this holy and sacred homeland and also praise the heroic steadfastness and honourable stands of our detainees in the prisons of the British Sultanate and vow to them that we will continue the struggle for realising the legitimate objectives for which our people fought long to realise.

Longlive the immortal revolution of 9th June; Long live the steadfastness of our brave people in the face of the Iranian and British invaders and the puppet Qaboos clique. Glory is for our brave martyrs and down with all conspiracies and liquidatory plans.

Qaboosite Regime Budget Confirm Its Warlike Nature

It is clear that the local repressive machineries received the lion's share of the general budget of the puppet regime. In addition to the amounts officially earmarked for the army has also a share in the other amounts earmarked for certain spheres such as the construction of roads and buildings, for camps, for the establishment of barracks which are not included in the general budget of the army but included within the civil corporations such as the establishment of (Muscat-Sahhar road) for military purposes. The establishment of al-Sib international airport is having a basically military aim and for this purpose an amount exceeding 33 million rials was earmarked for the Ministry of Communications.

1) Education does not get

more than 1.5 per cent from the budget although the conditions for holding contracts with the Arab teachers stipulated that houses are to be established and built for these teachers and their families. This means that most of the amounts earmarked for this Ministry will be spent on the construction of houses & salaries of the teachers and employees. Therefore, the exaggeration by the Muscat authorities that they will offer education for all are mere lies and distorted propaganda.

2) The same is also applicable to Health in a country suffering from epidemics and poverty and lacks medical institution. The Ministry of Health in this country does not get but less than six percent of the budget.

3) Agriculture, the backbone of the Omani economy, has no separate budget and its budget

is included with the budget of establishment of corniche and tree planting in the capital as well as the establishment of rest houses.

4) As to the Ministry of Social Welfare, which is directly concerned with the affairs of the citizens in a country such as Oman where dreadful backwardness and dire need resulting from unemployment and hitch prices, the budget of this Ministry is not much lucky than the Ministry of Education:

In a backward country such as Oman which is in acute need to investment for economic and social construction (education, health, social welfare and development, etc) and basically depending upon agriculture, agriculture must be given primary attention. However, provisions of the budget always depict the opposite.

FIGURES CONFIRM HOW ENEMY LOSSES ARE SO GRAVE

IMMORTAL RECORD OF SACRIFICES AND HEROISM WHICH MADE AND STILL MAKES VICTORIES OVER THE ENEMIES OF OUR PEOPLE AND GLORIOUS NATION

The forces of the People's Liberation Army and the People's militia recorded wonderful victories over the forces of the British colonialists and the Iranian invaders and these victories alone have kept the balance of power in the conflict going on between the revolution of our people and the colonialists and invaders in favour of the masses of our people. During one year of the nine-year armed struggle - from the end of April, 1973 to the end of May, 1974 - the forces of the People's Liberation Army and the people's militia recorded extensive military operations against the invaders and colonialists and inflicted upon them heavy losses in life and equipment and a number of vanguards from our people fell on the path of the revolution as martyrs defending people's freedom and prestige. The following is a statement on the operations and the total losses of the enemy and the revolution's forces.

CENTRAL REGION (RED LINE)

Number of Attacks
129
Number of Battles
31
Number of shelling operations

Number of sniping operations
16
Number of ambushes
18
Aggressive raids
10
Aggressive artillery shelling
8
Mining
13

ENEMY LOSSES:

Lives
459 killed and wounded
Positions
22 Defensive positions
British Officers
6 pilots and engineers
Joining the revolution
8 quitted the ranks of the enemy
Vehicles
16 big and small
Machine-guns
19 different calibres
Wire-less
9 captured and destroyed
aircraft
4 helicopters and fighters
artillery

- 1 81 mm
- Armoureds
- 2 Destroyed
- Air terminal
- 4 destroyed
- Military Posts
- 1 destroyed
- Military Office
- 1 destroyed

OUR LOSSES

- 1) Heroic death of brave Comrade Mussallam Ahmed Ali
- 2) Heroic death of brave Comrade Mussallam Mohammad Affir
- 3) Heroic death of Brave Comrade Saeed Muhad Sailmoon.
- 4) Heroic death of brave Comrade Ali Mussallam Mussaref.
- 5) Heroic death of Brave Comrade Ahmed Ali Salman.
- 6) Heroic death of brave Comrade Ahmed Ali Gashaat.
- 7) Injury of Comrade Salem Mussallam Thamman

FROM THE CITIZENS

- 1) Death of female citizen Khyyar Saeed Ga'ad
- 2) Death of female citizen Fatimah Bakheet Muhadd.
- 3) Death of female citizen Fatimah Masood Zaidi
- 4) Injury of two citizens and the extermination of twenty two cows and twelve camels and the burning of a large number of cottages and caves of the citizens in addition to wide herding areas.

EASTERN REGION

Number of attacks
10
Number of Battles
15
Number of Ambushes
4
Aggressive raids
7
Aggressive Artillery shelling
2
Enemy losses in life
110 killed and wounded
Number of British officers
6
Machine-guns
2 heavy and medium
Aircraft
2 a fighter and a helicopter
Ammunition store
1

OUR LOSSES:

- 1) Heroic death of brave Comrade Salem Mussallam Alsisi
- 2) Heroic death of brave comrade Mohammad Hassan Haqqabi
- 3) Heroic death of brave comrade Salem Issa Ahmed Harqar
- 4) Heroic death of brave Comrade Salem Saeed Ali
- 5) Heroic death of brave comrade Mohammad Saeed Haddad

- (member of the Local Commander, Dhofar Region)
- 6) Heroic death of brave Salem Abu Abdel Moneim
 - 7) Heroic death of brave Comrade Issa Ahmed Bakheet Hunaywat
 - 8) Heroic death of brave Comrade Awadh Saeed Bema- traf
 - 9) Heroic death of Brave Comrade Awadh Suhail Farag Omer
 - 10) Heroic death of brave comrade Mohammad Ahmed Saeed
 - 11) Heroic death of brave comrade Mohammad Salem Ahmed Issa Harkoon (while in captivity he was injured but later the authority broadcasted the report on his death)
 - 12) Heroic death of brave comrade Ali Farag Abshoosh (who was ransacked by the puppet forces in his house).
 - 13) Heroic death of female citizen Fatimah Saeed Dahaq
 - 14) Injury of a male and female citizens and their child.
 - 15) The extermination of ten cows and fifty goats and the burning of wide areas of grazing places and some cottages of the citizens.
